MESSAGE FROM THE PRESIDENT

DEAR READERS

It gives me immense pleasure to share my thoughts through this school magazine, which stands as a reflection of our students' creativity, hard work, and intellectual growth. A magazine is not merely a collection of articles and artworks; it is a mirror of the school's spirit, capturing ideas, values, and aspirations of young minds.

Education, in its true sense, is not confined to academic excellence alone. It is a holistic process that shapes character, builds confidence, and prepares students to face life with courage and integrity. In today's rapidly changing world, students must learn not only what to think, but how to think. Curiosity, creativity, and critical thinking are essential skills that will help you adapt and succeed in the future.

Our school strives to provide an environment that encourages learning, discipline, and mutual respect. Discipline is the foundation upon which success is built. It teaches responsibility, time management, and self-control—qualities that remain valuable throughout life. Alongside discipline, compassion and empathy are equally important. A kind heart and a respectful attitude can leave a lasting impact on society.

I urge students to understand that failure is not the end, but a step toward improvement. Every challenge you face strengthens your determination and sharpens your abilities. Believe in yourself, stay focused on your goals, and never hesitate to work hard. Success comes to those who remain consistent, patient, and dedicated.

Teachers play a pivotal role in shaping the future of students. Their guidance, wisdom, and encouragement help students discover their true potential. Respecting teachers and valuing their efforts is essential, as they are the architects of tomorrow's leaders. Parents, too, deserve appreciation for their constant support and trust, which empower students to move forward with confidence.

In this digital age, technology has become an integral part of learning. While it offers endless opportunities for growth, it must be used wisely and responsibly. Let technology be a tool for knowledge and innovation, not a distraction from your goals and values.

As students of this institution, you carry the responsibility of upholding its name and values. Be honest in your actions, sincere in your efforts, and humble in your achievements. Strive for excellence, not just in academics, but also in conduct and character.

I congratulate the editorial team and all contributors for their dedication in bringing out this magazine. May this publication inspire creativity, encourage expression, and strengthen the bond within our school community.

I wish all students a future filled with success, wisdom, and purpose. Continue to learn, grow, and make your school proud.

THANK YOU

REGARDS,

Sardar Gurdayal Singh Anand

President

Guru Nanak Senior Secondary School, Guwahati

MESSAGE FROM THE SECRETARY

Dear Students, Teachers, and Esteemed Readers,

It is with great pleasure and honor that I address you through this edition of our school magazine. As we navigate through the academic year, we must remember that education is not just about acquiring knowledge but about shaping our future. Every effort you put into your studies, co-curricular activities, and personal growth plays a vital role in building the path to success.

The journey towards success is rarely smooth, and it often requires overcoming obstacles. Challenges, whether in academics or personal life, are part of the process. However, it is essential to understand that challenges are opportunities in disguise, providing us with valuable lessons that shape our resilience and character. It is how we face these challenges, that truly defines us.

One of the most important lessons I wish to share with all of you is that hard work is the cornerstone of achievement. Talent may set the foundation, but it is consistent effort, dedication, and discipline that lead to meaningful progress. Whether you are preparing for an exam, learning a new skill, or contributing to a project, remember that persistence is the key. Success is a journey, not a destination, and it is built through continuous effort, day by day

In addition to hard work, I urge each one of you to embrace failure as a stepping stone to growth. It is a natural part of any journey and should not be feared. When we fail, we are presented with the opportunity to learn, to re-evaluate our approach, and to try again with greater understanding and determination. Failures do not define us, but our response to them does. Treat each setback as a chance to improve, and keep moving forward with renewed strength.

While striving for excellence, it is equally important to remember the value of balance. Mental and physical well-being are essential for success. Do not neglect your health or personal relationships in the pursuit of academic or extracurricular goals. A healthy mind and body are the foundation for sustained success, and taking time to rest and rejuvenate will help you perform at your best.

Equally significant is the value of collaboration and mutual support. No one achieves greatness in isolation. Surround yourself with people who inspire you, support you, and challenge you to be your best. Be kind, generous, and cooperative with your peers, as the strength of a community lies in the strength of each individual. It is through collective efforts that we achieve the greatest results.

As we move forward, I encourage each one of you to set clear, achievable goals, remain disciplined in your pursuit of them, and take pride in every milestone you achieve along the way. Remember that success is not only measured by results but by the perseverance, integrity, and commitment shown throughout the journey.

In conclusion, I have full faith that each of you has the potential to achieve great things. Embrace every challenge with courage, work hard with dedication, and never stop learning. The future is yours to shape.

Wishing you all the very best in your endeavors.

THANK YOU,

WARM REGARDS

SARDAR BHUPINDER PAL SINGH

SECRETARY

GURU NANAK SENIOR SECONDARY SCHOOL, GUWAHATI

FROM THE COORDINATOR'S DESK

With great pride and joy, I welcome you to this edition of our school magazine, a beautiful compilation of our students' creativity, hard work, and imagination. It is truly heartening to witness the enthusiasm with which our young learners have contributed their thoughts and talents. A school magazine is not just a collection of articles and artwork; it is a mirror that showcases the thoughts, aspirations and achievements of young minds.

Over the years, our school has grown steadily—step by step—through perseverance, teamwork, and a shared vision. Each milestone we have achieved is the result of consistent efforts by our management, teachers, students, and supportive parents. From strengthening academic standards to expanding co-curricular opportunities and infrastructure, our journey of growth has been purposeful and progressive. This magazine beautifully showcases the talents, thoughts, and accomplishments of our students, highlighting the vibrant academic and cultural life of our institution. I appreciate the sincere efforts of the editorial team, teachers, and students who have worked tirelessly to bring this publication to life.

In today's rapidly changing world, our school continues to adapt and evolve while staying rooted in strong values. We constantly strive to upgrade our teaching methodologies, integrate modern technology, and create an inclusive learning environment where every child feels encouraged and empowered. Our focus remains on preparing students not only for examinations, but for life—by instilling confidence, curiosity, and a lifelong love for learning. As we move forward, we remain committed to building a stronger institution that nurtures excellence, innovation, and character in every learner.

We strongly believe that true education goes beyond textbooks. Our aim has always been to nurture confident, disciplined, and compassionate individuals who are prepared to face future challenges with integrity and determination. I sincerely appreciate the hard work of the editorial team, teachers, and students who have contributed to this publication. I encourage our learners to continue striving for excellence, believing in their abilities, and contributing positively to society.

WISHING YOU ALL A BRIGHT AND SUCCESSFUL FUTURE!

REGARDS

S. CHAKRABORTY, CO-ORDINATOR

GURU NANAK SENIOR SECONDARY SCHOOL, GUWAHATI

A JOURNEY OF VISION, REVIVAL AND GLORY: GURU NANAK SENIOR SECONDARY SCHOOL, GUWAHATI

Education is not merely the transmission of knowledge; it is the shaping of character, the building of dreams, and the nurturing of a brighter future for generations to come. Among the institutions that have tirelessly dedicated themselves to this noble cause stands Guru Nanak Senior Secondary School, Guwahati—one of the premier English medium senior secondary institutions in the entire Northeast India. Its story is not just about a school; it is about perseverance, vision, sacrifice, and the unwavering commitment of individuals who believed in the power of education.

The journey of this remarkable institution began in the year 1965 when it was established under the name **Sri Guru Nanak National High School**. The humble beginnings of the school were marked by a small group of only ten students who gathered with hope and aspiration within its walls. The institution was founded under the visionary leadership of Sardar Amrik Singh, the Founder Secretary of the school and also the respected Principal of Arya Vidyapeeth College, Guwahati. His vision was clear and profound—to create an institution that would not only impart quality education but also instill strong moral and ethical values among its students.

Under his able leadership and dedication, the institution grew steadily. Over the years, the school flourished by leaps and bounds, gaining recognition and respect as one of the finest educational institutions in the region. For decades, it remained a beacon of academic excellence and discipline, shaping the lives of countless students who later went on to contribute to society in meaningful ways.

However, like many institutions that go through cycles of growth and challenge, the school began to face difficult times after the early 1990s. The period that followed saw a gradual decline in the institution's progress. Infrastructure began to deteriorate, enthusiasm waned, and the once-thriving institution slowly started losing its former glory. By the year 2016, the strength of the school had drastically reduced to merely 200 students. The once vibrant campus seemed to echo with memories of its glorious past rather than the promise of its future.

At this critical juncture, destiny brought forth a new chapter in the history of the institution. In October 2016, a new management took over the responsibility of rebuilding and revitalizing the school. At the helm of this transformative journey stood Sardar Bhupinder Pal Singh, fondly known as Kikiji, who assumed charge as the Secretary of the institution. The task before the new management was enormous. Reviving an institution that had faced years of decline required courage, vision, and relentless dedication.

Yet, with determination and foresight, the new leadership embraced this challenge with a clear goal—to restore the lost grandeur and glory of the institution.

One of the very first initiatives undertaken by the new Secretary was the renovation of the long-abandoned auditorium. What once stood as a neglected structure was transformed into a magnificent modern facility. The auditorium was completely redesigned with elegant interiors, supported by iron pillars for structural strength and durability. Air-conditioning systems were installed, and the space was refurbished with modern amenities. Today, this grand auditorium stands proudly with a seating capacity of around 500 people, serving as a vibrant venue for cultural programs, seminars, and important school events.

The transformation did not stop there. The entire campus began to witness a remarkable revival. Classrooms, staircases, rooftops, and corridors were reconstructed and fitted with modern infrastructure. Marble flooring, improved electrical fittings, and contemporary furniture created an environment conducive to effective learning. The once aging structure of the institution gradually evolved into a modern educational campus.

One of the most remarkable achievements of the new management was the transformation of the vast school field. Spread over nearly six acres of land, the area was once a deep marshland nearly ten feet below ground level. Through extraordinary effort and planning, approximately 3000 truckloads of earth were brought in to fill and level the land. Today, the same field stands as a magnificent space for sports and outdoor activities. A 400-meter paver block athletic track with a width of seven meters now surrounds the field, providing students with excellent facilities for athletics, football, and cricket.

Another major problem that had long troubled the institution was seasonal flooding. During monsoons, the campus used to get submerged, disrupting academic activities. To address this, the entire campus was elevated by nearly one meter, including the bases of the existing buildings. This thoughtful engineering effort has permanently resolved the flooding issue, ensuring that classes can continue uninterrupted even during heavy rainfall or natural calamities.

The institution also expanded vertically with the construction of three new floors, each measuring approximately 12,000 square feet. These additions brought 24 spacious and modern classrooms on each floor, significantly enhancing the institution's capacity to accommodate growing numbers of students.

A particularly sacred addition to the campus is the establishment of a permanent Gurdwara within the school premises. This spiritual center allows students, teachers, and members of the institution to offer prayers and seek blessings of Guru Nanak Dev Ji, whose teachings of humility, equality, and service continue to inspire generations.

Infrastructure development continued with the creation of a robust drainage system extending nearly 600 meters with a depth of three meters, ensuring quick removal of rainwater from the campus. The institution also built a beautiful Open Air Theatre (OAT), which now serves as the central venue for morning assemblies, celebrations, and cultural events.

For the younger students, a dedicated children's park and an air-conditioned children's activity area were developed. These spaces provide opportunities for recreation and learning beyond textbooks. Activities such as yoga, martial arts, and other co-curricular engagements now form an integral part of the holistic development of students.

Recognizing the importance of digital education in the modern era, the institution established three state-of-the-art air-conditioned computer laboratories equipped with more than 200 computers. Most of the classrooms are equipped with audio-visual set-ups for interactive teaching and learning engagements. These facilities empower students with technological skills essential for the rapidly evolving world.

The results of these tireless efforts became visible within a remarkably short span of time. In just eight years under the dynamic leadership of Secretary Sardar Bhupinder Pal Singh, the strength of the institution rose dramatically from 200 students to nearly 1200. The school expanded its academic offerings to include Science, Arts, and Commerce streams in

the Senior Secondary section, ensuring that students have diverse opportunities to pursue their ambitions.

Reflecting its renewed identity and expanded vision, the institution was officially renamed **Guru Nanak Senior Secondary School**. Today, it stands proudly as one of the most sought-after educational destinations for parents and guardians who aspire to provide the best possible future for their children.

Behind this transformation lies the collective effort of a dedicated team that has worked relentlessly with a single motto—to provide the best facilities in education, extracurricular activities, and the mental and physical development of students. The institution today boasts a team of more than 80 highly qualified and experienced teachers, supported by over 30 devoted staff members who ensure the smooth functioning of every aspect of school life.

It is also a matter of great pride that innovative ideas and suggestions presented to our honourable Secretary, Sardar Bhupinder Pal Singh, have always been warmly welcomed and supported by him for their timely implementation. His leadership is not merely administrative; it is inspirational. His vision, dedication, and unwavering belief in the potential of the institution have transformed what once seemed like a fading legacy into a thriving center of excellence.

As we look back at the extraordinary journey of Guru Nanak Senior Secondary School—from a humble beginning with just ten students to a vibrant institution nurturing more than a thousand young minds—we are filled with gratitude and pride. The story of this institution is a testament to what determination, unity, and visionary leadership can achieve.

May our respected Secretary, Sardar Bhupinder Pal Singh Ji, be blessed with good health, strength, and long life so that he may continue to guide us with his wisdom and inspire us to carry forward the mission of nurturing future generations. With his continued leadership and the collective dedication of the entire school community, Guru Nanak Senior Secondary School will undoubtedly continue to shine as a beacon of knowledge, values, and excellence for many years to come.

SUBHRANSU CHAKRABORTY
CO-ORDINATOR
GURU NANAK SENIOR SECONDARY SCHOOL

A NOTE FROM THE EDITOR –IN- CHIEF

Dear Valued Readers,

Every child carries a world of ideas within, and it brings me great happiness to introduce this magazine that beautifully captures the imagination, thoughts, and talents of our students. This magazine is not just a collection of pages; it is a reflection of the creativity, thoughts, and voices of our students. Each article, poem, artwork, and idea showcased here carries the spirit of curiosity, effort, and imagination that defines our school.

In today's fast-moving world, where information is everywhere, expressing oneself thoughtfully has become more important than ever. This magazine serves as a platform where students are encouraged to think beyond textbooks, explore their interests, and share their perspectives with confidence. From thought-provoking articles to light-hearted pieces, every contribution adds a unique colour to this collective creation.

Putting together this magazine has been a rewarding journey. It required dedication, teamwork, and patience from everyone involved. I sincerely appreciate the efforts of our contributors who dared to put their ideas into words and our editorial team who worked tirelessly to refine and shape this magazine. Your commitment has turned a vision into reality.

I would also like to express my heartfelt gratitude to our respected Principal and teachers for their constant guidance, encouragement, and support. Their belief in our abilities has motivated us to aim higher and do better at every step.

As you turn these pages, I hope you find inspiration, joy, and a sense of pride in the talent that surrounds us. May this magazine encourage readers to think creatively, speak boldly, and never hesitate to express their ideas and opinions

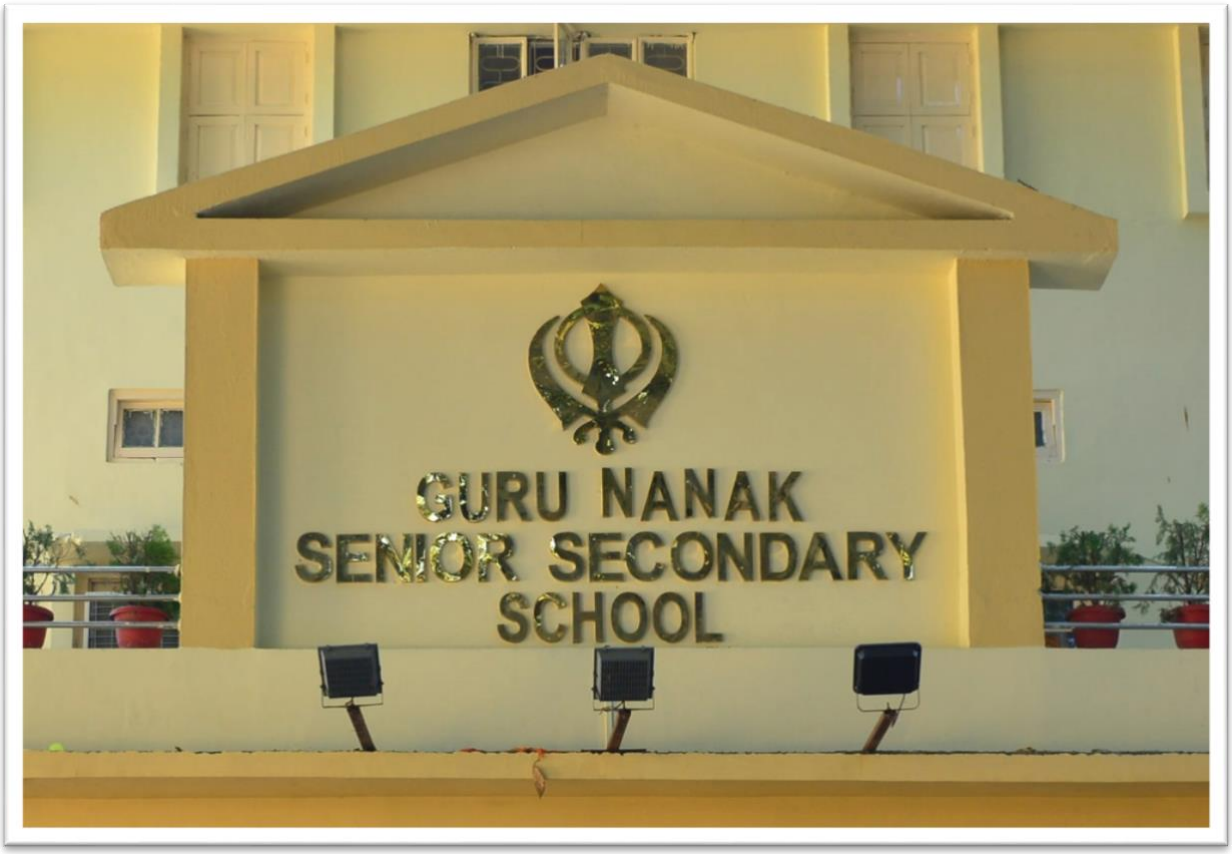
Let this edition remind us that every voice matters and every thought has the power to make a difference.

Happy reading!

Warm Regards,

Ria Das

Editor in Chief



ABOUT THE SCHOOL.....

GURU NANAK SENIOR SECONDARY SCHOOL is a Co-ed school established in 1965. It is affiliated to SEBA and is managed by a group of dedicated educationalists. Situated in the heart of the city with a picturesque environment, it caters to the all – round development of the children providing quality education, various co-curricular activities including NCC , Scouts and Guides. The school is equipped with all the necessary modern technology like smart classrooms, computer labs etc. Along with that the school has a big playground, auditorium, library, basket ball court, botanical garden and a Gurdwara for spiritual development of the students,

We at GURU NANAK believes in imparting the best education emphasizing on the holistic development of the child through value based education inspired by the teachings of Guru Nanak Devji.

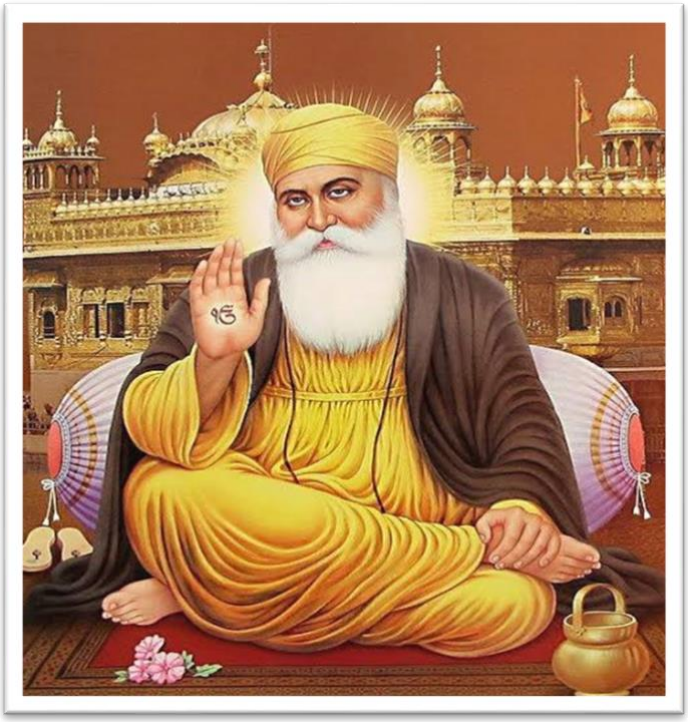
WAHE GURU JI KA KHALSA, WAHE GURU JI KI FATEH



Guru Nanak DevJi:

The Enlightened Prophet of Equality and Compassion

Guru Nanak DevJi, the founder of Sikhism, was a revolutionary figure who left an indelible mark on Indian society with his teachings of equality, compassion, and devotion to one divine entity. Born in 1469 in the village of Talwandi (now known as Nankana Sahib) in present-day Pakistan, Guru Nanak's life and teachings continue to inspire millions around the world.

From a young age, Guru Nanak DevJi showed a keen interest in spirituality and questioned the prevailing social norms and religious practices. His encounters with the injustices and inequalities of society ignited a spark within him, leading him on a path of spiritual enlightenment.

Guru Nanak's teachings revolved around the belief in one formless, omnipresent divine being, whom he referred to as **"IkOmkar" (One God)**. He emphasized the importance of meditation, selfless service (Seva), and living a virtuous life. Rejecting the rigid caste system and religious divisions of his time, Guru Nanak preached the equality of all human beings regardless of their caste, creed, or gender. He famously proclaimed, "Na koi Hindu, na koi Musalman" (There is no Hindu, there is no Muslim), emphasizing the unity of all humanity.

Connecting the Teachings of Guru Nanak DevJi to the Modern World

Guru Nanak DevJi, the first Sikh Guru and the founder of Sikhism, was not only a spiritual teacher but also a visionary reformer who preached universal values that continue to illuminate the path of humanity even today. Born in 1469 in a small village called Talwandi (now Nankana Sahib in Pakistan), Guru Nanak DevJi lived during a time of deep social divisions, religious dogmas, and moral decay. His teachings were revolutionary because they rose above the barriers of religion, caste, and creed, offering a message of unity, compassion, and equality. More than five centuries later, his words still carry profound relevance in the modern world — a world struggling with conflicts, materialism, inequality, and moral confusion.

1. The Message of Oneness and Universal Brotherhood

Guru Nanak DevJi's primary teaching was "IkOnkar" — there is one God who is the Creator of all, and all beings are His children. This simple yet powerful idea holds immense significance in today's fragmented world, divided along lines of religion, race, nationality, and ideology.

2. Equality of All — Breaking Caste, Gender, and Social Barriers

Guru Nanak DevJi strongly opposed the rigid caste system that plagued Indian society. He declared, "There is no Hindu, there is no Muslim — all are equal before God." His teachings challenged social hierarchies and promoted equality among all human beings, regardless of birth or social status.

His insistence on women's equality was particularly progressive for his time. He said, "Why call her inferior, when from her, kings are born?" This message aligns perfectly with modern campaigns advocating for women's empowerment and equal opportunities. In workplaces, politics, and education, Guru Nanak's words inspire us to ensure that equality is not just a slogan, but a lived reality.

3. Honest Living and Hard Work — 'Kirat Karo'

Guru Nanak DevJi taught his followers to lead a life of honesty, hard work, and dignity of labor — expressed through the principle of "KiratKaro" (earn by honest means). He rejected idleness and exploitation, emphasizing that spiritual growth is incomplete without ethical livelihood.

4. Sharing with Others — 'Vand Chakko'

Another central tenet of Guru Nanak's philosophy is "VandChakko" — share what you have with others, especially those in need. He emphasized selflessness and community service as paths to divine realization.

In today's age of consumerism and individualism, VandChakko offers a powerful counterbalance. Guru Nanak's call to share with the less fortunate urges us to create more compassionate communities.

5. Meditation and Mindfulness — 'Naam Japna'

Guru Nanak DevJi taught that the remembrance of God's Name (Naam Japna) purifies the soul and brings peace. He encouraged people to meditate on the Divine while performing their worldly duties, thus integrating spirituality into everyday life.

In today's fast-paced, technology-driven world, where stress, anxiety, and loneliness are common, Guru Nanak's emphasis on meditation and mindfulness holds great psychological and emotional value. Modern science now validates what he taught centuries ago — that meditation reduces stress, enhances focus, and improves overall well-being.

6. Relevance in Environmental and Ethical Living

Though Guru Nanak lived centuries ago, his teachings reflect deep ecological awareness. In his hymns, he personified nature as divine — "Air is the Guru, Water the Father, and Earth the Great Mother." These words convey profound respect for the environment.

7. The Spirit of Service — 'Seva'

Seva, or selfless service, lies at the heart of Sikh philosophy. Guru Nanak DevJi taught that serving others is the truest form of worship. It means helping others without desire for recognition or reward.

8. Combating Materialism and Ego

Guru Nanak DevJi warned against excessive attachment to material possessions and ego, which he saw as obstacles to spiritual and moral growth. He taught that wealth and power are transient, and that true happiness lies in humility and contentment.

In the land of five rivers bright,

Rose a faith of courage and light.

With "Ik Onkar" the truth was shown,

One Creator, forever one.

With Kirpan's strength and Kara's ring,

Faith and discipline they bring.

Kanga, Kesh, and Kachera too,

Symbols of a life pure and true.

GURU NANAK SPORTS ACADEMY

Guru Nanak Sports Academy proudly marked the beginning of a new chapter in sports excellence with its grand inauguration in 2025. The academy was inaugurated by renowned Miss India and Bollywood actress Neha Dhupia, whose presence added grace and significance to the occasion. The event was attended by our respected Secretary Sardar Bhupinder Pal Singh, along with other trustee members and dignitaries who have played an important role in shaping the vision of the academy.

The Guru Nanak Sports Academy has been established with the mission of encouraging young minds to participate actively in sports and develop discipline, teamwork, and confidence. One of the most remarkable features of this initiative is that the academy is completely free of cost for the students of our school, ensuring equal access and opportunity for all.

The academy offers a variety of sports training programs including Football, Skating, Basketball, Cricket , Badminton and Karate Each sport is guided by highly experienced and skilled faculties who are dedicated to nurturing talent and shaping future champions. Along with that the academy is organising tournaments and matches to build the competitive spirit of the students. Certificates are also provided to the student after completion of their course.

With world-class training facilities and a strong foundation of values, Guru Nanak Sports Academy aims to inspire students to excel not only in academics but also in physical fitness and sportsmanship.

WORDS OF WISDOM BY THE EDITOR

HOW TO COPE WITH STRESS – A GUIDE FOR STUDENTS:

In today's fast paced academic world, stress has quietly become a constant companion for many students. Exams, deadlines, expectations, competition and personal challenges can often be exhausting. So, the question is "How can we manage stress?"--- And the good news is— It can be managed by the following steps:

1. Break Tasks into Smaller Steps

Large goals can feel intimidating. Divide your work into clear, achievable tasks. Completing small milestones builds confidence and reduces pressure.

2. Stay Organized

Use a planner or timetable to manage assignments, study hours, and breaks. When your day is structured, your mind feels lighter.

3. Take Breaks — They're Important

Studying for long hours without rest exhausts the brain. A short walk, a quick hobby break, or simply breathing deeply can refresh your mind.

4. Practice Deep Breathing and Mindfulness

When stress rises, pause and take slow breaths. This simple technique calms the nervous system and helps you refocus.

5. Stay Connected

Talk to friends, teachers, or family when things feel overwhelming. Sharing your thoughts is not a sign of weakness — it is strength.

6. Sleep Well & Stay Active

Your brain performs best when rested and energized. Avoid late-night cramming and ensure you get enough sleep, physical activity, and healthy food.

7. Be Kind to Yourself

Remember: mistakes are a part of learning. Progress matters more than perfection.

Final Thought:

You are capable, strong, and growing every day. Take one step at a time — and believe in yourself.

Wisdom Corner

- **Don't fear mistakes — fear not learning from them.**
- **Great minds are not born; they are built with discipline.**
- **Be kind — it costs nothing but means everything.**
- **Your attitude determines your altitude.**
- **Learn something every day, even if it's small.**
- **Don't compare your chapter 1 with someone else's chapter 20.**
- **Believe in your dreams — and then work for them.**

Digital Detox: Can We Survive Without Screens?

Imagine waking up and not checking your phone. No messages, no reels, no notifications. Sounds peaceful but slightly terrifying….. Right? So, welcome to the idea of a digital detox—a break from screens to reconnect with real life.

For students, phones are almost an extra body part. We use them for online classes, homework, music, alarms, and of course "just five minutes" of scrolling that magically turns into one hour. A digital detox doesn't mean throwing your phone away—it simply means pressing pause.

The first few hours of a detox are the hardest. Fingers automatically reach for the phone even when it isn't there. Suddenly, the ceiling fan becomes interesting, walls look artistic, and old books we ignored for years start calling our names. Boredom arrives… and then creativity follows.

Without screens, conversations feel longer, laughter sounds louder, and time moves slower—in a good way. Students rediscover hobbies like drawing, journaling, reading, playing outdoor games, or simply doing nothing (a much underrated skill). Even sleep improves when phones stop glowing at midnight.

Of course, a digital detox isn't easy in a world run by Wi-Fi. But even short breaks—no phone during meals, study time, or one screen-free evening a week—can make a big difference. The goal isn't to quit technology, but to control it instead of letting it control us.

In the end, phones are amazing tools, but life happens beyond the screen. A little digital detox reminds us that the real world has better colours, better connections, and no battery warnings.

"LOG OUT FOR A WHILE TO LOG BACK INTO REAL LIFE "

HAPPY READING !!!

A Glimpse into Our Computer Department: *The Digital Pulse of our School*

The Computer Department of our school stands as a symbol of innovation, learning, and forward-thinking education. Rooted in the inspiring vision of Sardar Bhupinder Pal Singh, the department was built with the belief that technology is not just a subject—it is a gateway to the future. His vision has transformed the department into a space where curiosity thrives, creativity grows, and students learn to shape tomorrow with confidence and skill.

Under the dynamic leadership of our Head of Department, Mr. Anirbaan Sutradhar, the department continues to evolve with time. With his expertise, dedication, and passion for teaching, the department has reached new heights in curriculum development, practical exposure, and academic excellence. Overall, the school has three labs catering to the needs of Junior, M.E and Senior Sections, along a with team of mentors guiding our students.

Today, the Computer Department proudly nurtures future programmers, software developers, designers, and digital thinkers. Equipped with modern hardware, licensed software, interactive teaching methods, and constantly updated content, the department ensures that every student remains aligned with ongoing global changes in the technological world.

Our Computer Department stands as a hub of innovation, learning, and digital empowerment. It nurtures curiosity and creativity through hands-on experiences, logical thinking, and problem-solving skills. With dedicated guidance and modern tools, students are prepared to face technological challenges, adapt to change, and emerge as confident, responsible digital citizens ready for the future.

Every year, students of the department consistently achieve commendable results in their HSLC and HS examinations winning appreciation and recognition for their hard work.

With dedication, determination, and a vision for progress, the Computer Department continues its journey—preparing each student not only for exams, but for a world driven by knowledge, skill, and technology. And in the coming years, we hope to strive on its excellence

ZUBEEN GARG: The Voice that carries Assam's Soul

Some voices entertain, some voices inspire – but a few voices become emotions. Zubeen Garg's voice is not just a sound; it is the heartbeat of Assam. When he sings, it feels as if the Brahmaputra flows through his words, carrying stories of love, pain, protest and hope.

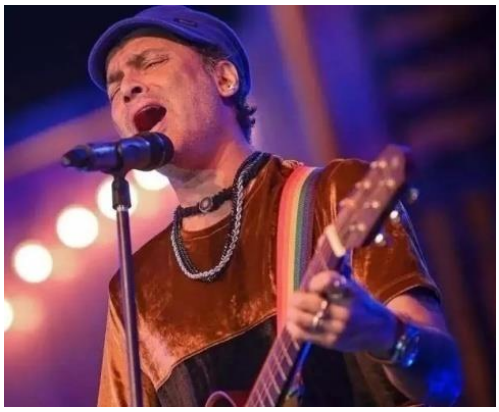
মায়াবিনী ৰাতিৰ বুকুত

দেখা পালোঁ তোমাৰ ছবি

ধৰা দিলা গোপনে আহি

হিয়াৰ কোণত…

Zubeen Garg is not merely a singer; he is the soul of Assam. His songs speak of the common people—of mothers waiting for their sons, of youths struggling with broken dreams, of a land rich in culture yet wounded by neglect. In every lyric, there is truth. In every tune, there is rebellion mixed with compassion.Born in 18th November, 1972 in Tura, Meghalaya, he was an Indian musician, composer, singer, songwriter, instrumentalist, actor, director, filmmaker, poet and philanthropist who primarily worked and sang in the Assamese, Bengali, and Hindi-language films and music industries.He nearly sang in 40 other languages and dialects and recorded 38,000 songs.



He was a multi-instrumentalist and played many instruments including dhol, dotara, drums, guitar, harmonica, harmonium, mandolin, keyboard, tabla, and various percussion instruments.

Zubeen's passion for music was apparent from his early years. He started singing at a very young age and eventually moved to Guwahati to pursue a professional career. In 1992, at just 20 years old, he released his debut Assamese album Anamika, which became a regional hit and helped revolutionize the Assamese music scene.

What makes Zubeen Garg extraordinary is his courage. He sings what many fear to say. His music questions injustice, mourns lost identities, and celebrates the pride of Assam. Even when misunderstood or criticised, he never silences himself. Like a true artist, he chooses honesty over comfort.

His emotional depth connects generations. To the youth, he is fire—bold, raw, and fearless. To the elders, he is nostalgia—reminding them of folk roots and forgotten values. Whether it is a folk melody, a modern rock number, or a patriotic song, Zubeen Garg carries the same intensity: love for his land.

Behind the fame stands a sensitive human being—one who feels deeply, breaks silently, and rises again through music. His flaws make him real, and his passion makes him unforgettable. That is why his songs are not just listened to; they are felt.

Zubeen Garg is Assam's cry and comfort, its anger and affection. As long as his voice echoes in the air, Assam will never lose its identity. He is not just an artist of Assam—he is Assam.

In September 2025, Zubeen Garg passed away unexpectedly, leaving behind a monumental legacy in music and culture. The outpouring of love and tributes from fans, public figures, and communities across India highlighted just how deep his influence was.

Though gone, he will continue ruling hearts. Zubeen Garg's achievements go far beyond awards and records. He was a true cultural icon, a musical pioneer, and a voice that beautifully bridged regional and national identities. His timeless work will continue to inspire musicians, artists, and audiences for generations to come.

"শৰীৰে নহ' লেও, সুৰে সুৰে তেওঁ সদায় আমাৰ হৃদয়ত জীয়াই থাকিব।"

(Meaning: Even if he is no longer with us in body, he will live forever in our hearts through his music.)

ধুমুহাৰ স'তে মোৰ
বহু যুগৰে নাচোন
এন্ধাৰো সঁচা মোৰ
বহু দিনৰে আপোন
নিজানৰ গান মোৰ
শেষ হ'ব
ভাবোঁ তোমাৰ বুকুত।

BUILDING STRONG FOUNDATIONS FOR THE FUTURE: THE BRIDGE BETWEEN JUNIOR AND SENIOR

SECTION: *M.E SECTION*

The Middle Elementary (M.E) Section of our school, comprising classes V, VI and VII plays a vital role in shaping young learners during their most formative years. This stage acts as a bridge between primary learning and higher academic challenges, focusing on both knowledge and character development.

In the M. E Section, students are encouraged to think independently, ask questions and develop curiosity. Our experienced and dedicated teachers use interactive teaching methods, activity based learning and modern educational tools to make learning engaging and meaningful.

Equal importance is given to academics, discipline, creativity and physical development. Students participate in sports, art, music, debates, quizzes and various co- curricular activities that help build confidence and leadership skills. Regular assessments, parent - teacher interaction and mentoring ensure continuous progress of our students.

The M.E. Section prepares students not only for academic excellence but also for becoming responsible, confident and all rounded individuals. We follow the motto inspired by the teachings of Sri Guru Nanak Devji ---- **“LEARNING WITH TRUTH, LIVING WITH VALUES. “**

Wellness: The Key to Student Success

Wellness is the foundation of a happy and successful student life. A healthy lifestyle helps students grow strong, confident, and positive in both body and mind. Eating fresh fruits, green vegetables, milk, and nutritious homemade food fills our body with energy and keeps us active throughout the day. Drinking plenty of water refreshes our body and sharpens our mind.

Regular physical activities such as walking, running, yoga, and playing outdoor games make us fit, energetic, and joyful. Exercise not only strengthens our muscles but also brings happiness and peace to our heart. Proper rest is equally important. Sleeping early and waking up on time helps us feel fresh, focused, and ready to learn new things each day.

Good habits play a vital role in our well-being. Washing hands regularly, keeping nails clean, and maintaining personal hygiene protect us from illnesses and build self-discipline. Limiting screen time and spending more moments reading books, playing creatively, and sharing laughter with family and friends keeps our mind calm, cheerful, and healthy.

A healthy student is a happy and confident student. When we follow a balanced and healthy lifestyle, we develop good character, learn with interest, play with enthusiasm, and spread smiles wherever we go.

VOICES: AN ODE BY OUR BUDDING WRITERS

Environmental Architects

What is an Environmental Architect?

Environmental Architects are some incredible species that play a crucial role in shaping and designing our ecosystem, maintaining a delicate balance between living organisms and their environments.
So let's dive into the fascinating world of the architects of our natural world.

Environmental Architect significantly influences the structure and functions of an ecosystem through the activities and as a result has large impact on species richness and overall environmental health.
So, let us explore some examples of environmental architect that showcase their remarkable abilities.

Elephants:
Elephants are huge environmental architects. They have not only one but instead, a number of behaviours that change their environment. Elephants often migrate great distances with their whole herd likely using the same pathways each year or seasons. The migration trails sculpt the land with deep groves also leaving behind enormous foot prints. They are also responsible for sediment moving and distribution sometimes elephants subsequently transform forests or wooded areas into grassland habitats.

Coral reefs:
Coral reefs are classic example of marine environmental architect. These living organisms develop into an intricate and beautiful calcium carbonate structure providing shelter and thriving habitat for countless marine species, plants and animals alike. Consequently coral reefs often provide nurseries as well as feeding and spawning grounds for many fish. With the naturally created barrier in the ocean coral reefs play essential role in protecting coastlines from erosion.

Termites :
Termites a crucial role in many ecosystems, often referred to as '**ecosystem engineers'**. Termites are primary decomposers of dead wood and plant matter. Their tunneling activities can significantly alter soil structure. This can improve soil erosion and water infiltration,promoting plant growth. In savannas termites play a vital role in maintaining grassland ecosystem.

Whales:
Whales despite their massive size and acquatic habitat play a significant role as environmental architects. Whale transport nutrients from deep ocean waters to surface waters through their feeding and migration patterns. Whales store large amount of carbon in their bodies. When they die, their carcasses can create deep sea habitats providing food and shelter for a variety of organisms. This process is called **"Whale fall".**

Mussels:
Mussels are important freshwater environmental architects. Mussels are filter feeders, removing suspended particles: algae and bacteria from the water column. Their attachment to rocks and after substrates can help to stabilize sediments preventing erosion and promoting the development of aquatic plants.

Apart from Animals, Plants also play a crucial role in shaping the environment. Plants create habitat for wide range of organisms. Their roots, branches and leaves provide shelter, food and breeding sites for various species.

Mangroves: Coastal Environmental Architect:
Mangroves are salt tolerant trees that grow in coastal areas, forming unique ecosystems. Mangroves act as natural barriers protecting coastlines from erosion, storms and tsunamis. Their dense root systems help to stabilize sediments and dissipate wave energy. Mangrove forests support important fisheries by providing nursery grounds and habitat for fish and other marine organisms.

Banyan trees:
The iconic tropical trees renowned for their massive size and sprawling root systems. Banyan trees provide a diverse range of habitats for numerous species. Their dense canopy offers shade and protection from the elements, while their root system creates a complex network of cavities and crevices that provide shelter and nesting sites for various organisms. Many epiphytic plants, such as orchids and ferns, grow on the branches of banyan trees.

Sea weeds:
Sea weeds are often overlooked but they play a crucial role as environmental architects in marine environments. Seaweed beds can create complex three-dimensional structures that provide habitat for a variety of marine organisms, including fish, invertebrates and other seaweed species. Seaweeds can help to improve water quality by filtering out pollutant and excess nutrients.

Bamboo:
Bamboo is a rapidly growing plant with a wide range of ecological functions. Bamboo's dense root system helps to stabilize the soil, preventing erosion and presenting topsil. Bamboo forests provide habitat for a diverse range of organisms, including birds, mammals, insects and reptiles. Bamboo is a fast-growing plant that can absorb large amounts of carbon dioxide from the atmosphere, contributing to climate change mitigation.

Now we have a proper idea of what environmental architects are and how they help the Environment by creating habitats enhance biodiversity and influence the survival of countless other species. It's essential for us to appreciate and protect the ecosystem engineers to ensure a healthy environment for our future.

MD IRFAN

CLASS 9A

A Tragedy in Indian History: *Jallianwala Bagh Massacre*

Jallianwala Bagh Massacre, a incident happened on April 13, 1919, in which British troops opened fire on a large crowd of unarmed Indians in garden called the Jallianwala Bagh in Amritsar in the Punjab Region of colonized India, killing several hundred people and wounding many hundreds more. It marked a turning point in India's independence struggle, in that it left a permanent scar on Indo-British relations and was the prelude to Mahatma Gandhi's full commitment to the cause of Indian nationalism and independence from Britian.

During World War I (1914-18) the British government of India enacted a series of repressive emergency powers that were intended to combat subversive activities. By the war's end, expectations were high among Indians, that those measures would be eased and that India would be given more political autonomy. The Montagu- Chemsford Report, presented to the British Parliament in 1918, did in fact recommend limited local self government of India passed what became known as the Rowlatt Act, which essentially extended the repressive wartime measures.

The acts were met by widespread anger and discontent among Indians, notably in the Punjab region. In early April, Gandhi called for a one day general strike throughout the country. In Amritsar the news that prominent Indian leaders had been arrested and banished from that city sparked violent protests on April 10 in which soldiers fired upon civilians, buildings were looted and burned, and angry mobs killed several foreign nationals. A force of several dozen troops commanded by Brig. Gen. Reginald Edward Harry Dyer was given the task of restoring order. Among the measures taken was a ban on public gatherings.

On the afternoon of April 13th, a crowd of atleast 10,000 men, women and children gathered in the Jallianwala Bagh, which was nearly enclosed by walls and had only one exit. It is not clear how many people there were peaceful protesters who were defying the ban on public meetings and how many had come to the city from the surrounding region to celebrate Baisakhi, a spring festival.

Dyer and his soldiers arrived and sealed off the exit. Without warning, the troops opened fire on the crowds, reportedly shooting hundreds of rounds (about 1,650) until they ran out of ammunition. It is not certain how many died in the bloodbath, but according to official reports, an estimated 379 people were killed and about 1,200 more were wounded. Immediately after the troops ceased firing, they withdrew from the place, leaving behind the dead and wounded.

CLASS 11

IMPORTANCE OF NCC IN TODAY'S WORLD

The motto of NCC is ***"Unity and Discipline***", and this motto guides every cadet to live a life filled with honesty, hard work, and dedication.

A very special part of NCC is that it helps in leadership, unity, and quality building. Cadets learn how to lead groups, make quick decisions in difficult situations, and inspire others to work as a team Unity is strengthened when students from different regions, religions, and backgrounds come together and train under one flag NCC also builds qualities--- like selfless service, respect for the nation, time management, cooperation, and problem-solving skills. These values not only prepare cadets for defense services but also for every walk of life.

Another major advantage of NCC is its certificates **-"A," "B," and "C"-** which are highly valuable for a student's career These certificates are recognized in defense services, government recruitments, and even in higher studies, giving NCC cadets a special edge over others. Being a part of NCC is a matter of pride for every student because it shapes character teaches responsibility, and makes them ready to serve the country at any time

In our own GNSSS school we also have NCC training under the 30 Assam Battalion and it is a wonderful experience. Whenever we attend NCC camps it is not just about drills and parades but also about fun, friendship and learning new survival and adventure skills. The camp life is full of discipline, teamwork, and enjoyment, and it gives unforgettable memories truly, NCC is not only about preparing good leaders of tomorrow but also about building responsible, united, and patriotic citizens who are always ready to serve the nation with pride

The Rhythm of My Soul

Dance, to me, is more than just movement—it is the heartbeat of my life. Every time I step onto the stage, I feel an energy that words cannot describe. The music flows through me, and my body becomes its instrument, expressing emotions that go beyond speech.

My journey began in Class 7, and since then, dance has been my constant companion. It has shaped me, taught me discipline, patience, and above all, the courage to dream. Over the years, I have been blessed to receive 15 trophies, 11 medals, and 40 certificates, but each award is more than just recognition—it is a reminder of the passion and dedication behind every performance. The proudest moment of my journey was being honored as the Best Dancer of the School, a title that fuels me to keep striving for excellence.

Dance has given me confidence, strength, and an identity I hold close to my heart. On stage, I do not just perform—I live every beat, every step, and every emotion. It is in those moments that I feel most alive, most free, and most myself.

As I continue this journey, my dream is not only to grow as a dancer but also to inspire others to follow their passion fearlessly. Because when you dance with your heart, you don't just move—you touch lives.

CLASS 10 (A)

Growing up in school

School life is an important part of every student's journey. I joined my school in Class 6, and now I am in Class 9 ,In these years, I have learned many things and made many good memories.

At first,everything in the school felt new to me. I did not know many classmates, and I took time to understand the rules and routine. But soon, I became comfortable. The morning assembly, the ringing of the bell, and the daily classes became a normal part of my day.

My teachers have helped me a lot. They explain lessons clearly and guide us whenever we need help. Some are strict and some are friendly, but all of them want the best for us. Because of them, I have become more confident in my studies.

My friends make school life enjoyable. We share lunch, talk, laugh, and help each other with homework and classwork. Even on busy or stressful days, being with friends makes school feel lighter and happier.

Now, in Class 9, the subjects are tougher, but I still enjoy coming to school. I learn something new every day and feel myself growing.

School life teaches us discipline, teamwork, and important values. These memories and lessons will stay with me forever

AN INTERVIEW OF A LOCAL ARTIST:-

My name is Monalisa Sengupta and I have taken an interview of Mr Tapan Chandra Paul, clay sculptor Assam Guwahati Lal Ganesh. Is traditional ways are creating magical images of God and goddess in the heart of the city. This interview is a sneek-peek into the world of the creator is creation and the creative process.

So, I have asked him some questions about his profession and experience. The conversation is-

Me- From which School you have Passed?

Mr.Paul- I have passed from Assam Railway High Secondary School (Pan Bazar)

Me- Did you have taken any academic course to learn how to make sculpture.

Mr. Paul- no I didn't took any type of academic course to learn how to make sculpture. I have learnt from my father and I am working in this profession when I was 12 years old.

Me- Are you happy with your work?

Mr.Paul- Yes. I am happy with my work because I love my work very much and even if I don't love my work then also I need to do my work because someone has to handle this family business. And due to my work I am able to feed my children, live a decent life and contributing something to society.

Thank you so much Mr Paul that you give me your such important time. There are thousands of people like Mr Paul who are contributing their talent in society without taking any Fame.

Thankyou

MONALISA SENGUPTA

CLASS 10 (A)

Recent Trends in Artificial Intelligence:

Artificial Intelligence (AI) has rapidly become one of the most influential forces shaping modern technology. At its core, AI refers to the simulation of human intelligence in machines that are trained to think, learn, and perform tasks the way humans do. These intelligent systems can analyze information, make decisions, solve problems, and mimic human behaviour. As AI continues to evolve, it is transforming industries, improving efficiency, and redefining the way we interact with technology in our daily lives.

Popular AI Tools Today

A variety of innovative AI tools have emerged in the digital world, each designed to enhance creativity, productivity, and communication. Playground AI enables users to generate images simply by describing what they want, making artistic creation more accessible than ever. Similarly, Midjourney and Jasper support content creators by producing high-quality visuals and written content. Replika acts as a personalized chatbot companion built to simulate real conversations, while Play.ht converts text into realistic speech using advanced voice synthesis. These tools reflect how deeply AI is now integrated into creative and professional fields.

ChatGPT and Its Capabilities

ChatGPT, developed by OpenAI, is one of the most advanced AI chatbots to date. Launched on November 30, 2022, it quickly gained global popularity, reaching over one million users within just four days. Powered by massive datasets containing books, articles, and online content, ChatGPT can generate responses that closely resemble human writing. As the technology progresses, ChatGPT is expanding beyond text-based responses, moving toward capabilities such as voice interaction and image recognition. Its sophistication has also raised discussions about plagiarism, as AI-generated content can be difficult to distinguish from human-created work.

Training AI Models

Training an AI model involves preparing the right data and teaching the system to identify

patterns. Two major training methods are used—supervised and unsupervised learning. In supervised learning, the machine is trained with labelled data, much like a student learning with a teacher's guidance. For instance, when teaching an AI to recognize fruits, it is provided images categorized by colour and shape. On the other hand, unsupervised learning uses unlabelled data, meaning the system must find patterns on its own. If shown mixed images of dogs and cats, the AI will attempt to group them but may struggle without clear labels. These methods form the foundation of how modern AI learns and improves.

Applications of AI Tools

AI tools are increasingly becoming part of everyday digital workflows. Playground AI enables stunning visual art creation with simple text prompts, though frequent users may face limits on image quality. Play.ht is revolutionizing communication by converting written text into lifelike audio, supporting multiple languages and offering both free and premium features. Replika, developed by the AI start-up Luka, gained significant popularity during the pandemic as people sought virtual companionship. Even Adobe has integrated AI through Firefly, which helps designers create vector graphics faster and more efficiently. These developments highlight AI's ability to enhance creativity and streamline professional task..

CLASS-7(B)

EDUCATION……..

The Education is vital because it helps students understand the word 'education' better. Education is an essential tool in everyone's life. With education, an individual can accomplish many things. While learning new skills and getting educated, we all must realize how much of an impact it can have in our lives.

Education is a must for everyone. People choose to go to higher studies because they want to change their lives and the world around them. Education is vital because it helps us grow, excel and reach our full potential.

Education is critical for success in today's world. It not only provides one with skills to succeed, but it also helps prepare one for the future. Strong work ethics and strong moral values are taught in school, so that students learn how to interact with others in the society.
Education is the fastest way to change anything in one's life. A degree gives a person stability in their career and increases their chances for better career opportunities. Moreover, it offers benefits that go beyond degree attainment. Education can help one with gaining financial stability and more fulfillment in one's life.

SAMAY LAMA

CLASS 11

HACKING AND COMPUTER SECURITY

Hacking is the process of entering a computer system, network, or online account without permission. In today's digital world, hacking has become one of the biggest threats because almost everything we do—studying, shopping, banking, chatting, and storing personal information—is connected to the internet.

There are different types of hackers. Black-hat hackers are the criminals who break into systems to steal data, spread viruses, or cause damage. They may hack social media accounts, leak private information, or attack websites. Their actions are illegal and can lead to serious punishment. On the other hand, there are white-hat hackers, also known as ethical hackers. These are skilled computer experts who use their knowledge to protect people and companies. Ethical hackers find security weaknesses in websites, apps, and networks so that the owners can fix them. Many big companies hire ethical hackers to keep their systems safe from cyberattacks. There are also grey-hat hackers, who sometimes break rules but do not have harmful intentions.

To stay safe from hackers, we need strong computer security. Computer security includes many techniques such as:

- ***Strong passwords that are difficult to guess***
- ***Two-factor authentication for extra protection***
- ***Antivirus software to block viruses and malware***
- ***Firewalls to prevent unauthorized access***
- ***Regular updates to fix security problems***
- ***Avoiding suspicious links and messages***

Cybersecurity is important because one small mistake, like clicking on a fake link, can expose personal data such as photos, phone numbers, bank details, and passwords. Hackers often use tricks like phishing, where they send fake emails or messages pretending to be a trusted person or company.

Today, as technology becomes more advanced, hackers are also developing new techniques. At the same time, Cyber security experts and ethical hackers are working hard to create stronger protections. Schools, companies and even governments are teaching people about online safety to prevent cyber crime.

In conclusion, hacking can be dangerous and harmful when used in the wrong way but it can also be helpful when used responsively. Ethical hackers play an important role in keeping the digital workld safe. Understanding computer security helps us protect our information and stay safe online.

CLASS 7(C)

Zubeen Garg – The Pride of Assam

ZubeenGarg is one of the most famous and loved singers of India, especially in the state of Assam. He was born on 18 November 1972 in Jorhat, Assam. His full name is Zubeen Borthakur, but everyone knows him as Zubeen Garg because he admires the Indian music composer, R. D Burman, whose nickname was "Gargi". ZubeenGarg is not only a singer, but also a music composer, actor, director and musician. He has sung songs in many languages like Assamese, Hindi, Bengali, Tamil, Telugu and Nepali. One of his most popular Hindi songs is “Ya Ali” from the movie Gangster, which made him famous all over India.

In Assam, Zubeen Garg is a superstar. He has sung thousands of Assamese songs, Bihu songs and many other regional songs. He also works for the welfare of society and supports many charity activities. Because of his kindness and talent, he is a role model for the young generation. Zubeen Garg has received many awards for his contribution to music. His hard work and love for music has been an inspiration for many. And he was continued to ruled hearts generations after generations.

DISHA SINGH
CLASS 5 (A)

THE WORLD OF CONSCIENCE AND DESTINY

Since the evolution of "Man-Kind" the world has become a non peaceful and violent place. Man wants power , money ,wealth ,and even much more. We all can have a real life example from the middle 1900's which is the "World War 1" and "World War 2" . Lots and lots of people had lost their lives and families suffered after the death of the man of the house. –Adolf Hitler- the Nazi Germany leader, wanted to conquer the whole world but ended up murdering his family and killing himself.

It's not just about war and destruction. It is the inner emotion and ego of a man that can destroy the humanity that is within a few people. This growing anger of humans is in a large number that is in every country and state around the world. Even the present generation kids are discriminating other kids and their family based on their religion, caste, and the type of food they eat.

In conclusion, I just want to say that the world around us is not what we are thinking, it is much more harsh and violent than that. And if we want a solution for this problem... The only option is to keep our minds clean and stay away from any kind of discriminative information against any person because we don't know the real cause.

Zon-Al-Rabbani

Class 7 (B)

NEUTRON STARS: THE MOST EXTREME THINGS THAT ARE NOT BLACK HOLES.

"Stars" exist because of a fragile balance. The mass of millions of billions of trillions of tons of hot plasma are being pulled inwards by gravity, and squeeze material together with so much force that nuclei fuse. Hydrogen fuses into Helium, this releases energy which pushes against gravity and tries to escape. As long as this balance exists, stars are pretty stable. Eventually the hydrogen will be exhausted, medium stars, like our sun, go through a giant phase, where they burn helium into carbon and oxygen before they eventually turn into white dwarfs. But in many times the mass of our sun, things get interested when the helium is exhausted. For a moment, the balance of pressure and Radiation tips, and gravity wins squeezing the stars tighter than before. The core burns hotter and faster, while the outer layers of the star swell by hundreds of times, fusing heavier and heavier elements. Carbon burns to neon in centuries, neon to oxygen in a year, oxygen to silicon in months and silicon to iron in a day. And then ….. "Death". Iron is nuclear ash. It has no energy to give and cannot be fused. The fusion suddenly stops, ending the balance. Without the outward pressure from fusion, because of the enormous weight of the star above it, the core is crushed. What happens now is scary and awesome! Particles like electrons and protons really don't want to be near each other. But the pressure of the collapsing star is so great that electrons and protons fuse into neutrons, which then gets squeezed together as tightly as in atomic nuclei. An iron ball the size of the earth, is squeezed into a ball of pure nuclear matter the size of a city. But not just the core the whole star implodes. Gravity pulling the outer layer at 25% speed of light.This implosions bounces of the iron core producing a shock wave that explodes outwards and catapults the rest of the star into space. This is what we called a supernova explosion. What remains of the star is now a neutron star. Its mass is around the million times the mass of the earth, but compressed to an object about

25 km wide. It's so dense that the mass of all living humans would fit into one cubic centimeter of neutron star matter. That's roughly a billion tons. Its gravity is the strongest, outside black holes, and if it were any denser it would become one. Light is bent around it, meaning you can see the front and parts of the back. There surface reaches 1,000,000°C, compared to a measly 6,000°C for our sun.

In conclusion:-Neutron stars are among the most fascinating and extreme objects in the universe, formed from the collapsed cores of massive stars. As astronomers continue to explore the universe with increasingly sensitive instruments, neutron stars offer a window into the mysteries of the universe.

Class 7 (B)

MY FAVOURITE ANIMAL – RABBIT

My favourite animal is a rabbit. Rabbit are small and cute animal with long ears, short fluffy tails and soft fur. My favourite animal is a rabbit. Rabbits are small and cute animals with long ears, short fluffy tails, and soft fur. Their fur comes in many colours like white, brown, black, and grey, or sometimes a mix of these. I love white rabbits the most because they look very clean and beautiful.

Rabbits are very gentle and calm animals. They are shy but also playful. They like to hop around and sometimes stand on their back legs to look around. They live in burrows underground in the wild, but many people also keep them as pets at home.

Rabbits eat mostly plant-based food. Their favourite foods are carrots, leafy vegetables, grass, and hay. They also drink clean water. They do not eat meat because they are herbivores. As pets, rabbits need love and care. They should be kept in a clean and quiet place. They are the cutest animals in the world.

Class: 3 (B)

Assamese Freedom Fighters: Pride of the Nation

Assam has made remarkable contributions to India's freedom struggle through the courage, sacrifice, and determination of its brave sons and daughters. Assamese freedom fighters played a vital role in resisting British rule and awakening the spirit of nationalism among the people of the region. Their efforts and sacrifices remain a source of pride and inspiration for future generations.

One of the most prominent freedom fighters of Assam was Maniram Dewan. He was a patriot, administrator, and businessman who actively opposed British policies after the Treaty of Yandaboo (1826). Maniram Dewan participated in the Revolt of 1857 and mobilized people against British rule. Unfortunately, he was captured and hanged by the British, becoming one of Assam's earliest martyrs.

Another legendary figure was Kanaklata Barua, a young freedom fighter who laid down her life during the Quit India Movement of 1942. At a very young age, she led a peaceful procession to hoist the Indian National Flag at a police station in Gohpur. Despite warnings, she moved forward fearlessly and was shot by British forces. Her courage symbolizes the strength and determination of India's youth—chhoti umar, par mahaan balidan.

Kushal Konwar was another great freedom fighter associated with the Quit India Movement. He believed in non-violence and Gandhian principles. He was falsely accused in a train sabotage case and was hanged by the British. His sacrifice reflects the cruelty of colonial rule and the unwavering commitment of freedom fighters.

Chandraprabha Saikiani, a social reformer and freedom fighter, played an important role in empowering women and spreading nationalist ideas. She actively participated in the Civil Disobedience Movement and worked tirelessly for women's education and social equality.

The contributions of these freedom fighters remind us that freedom was achieved through immense sacrifice, unity, and determination. Their lives teach us the values of courage, patriotism, and selfless service. As responsible citizens of India, it is our duty to remember their sacrifices and work towards building a nation that upholds justice, equality, and harmony.

AAYUSHI KUMARI
CLASS 10

Teenage Life

When you are a kid, you know nothing about life. You are a tiny creature messing around, and after annoying everyone, you finally go back to playing with your toys.

When you become an adult, however, you have gone much deeper into life. You are done with kindergarten, elementary school, middle school, and high school. You enter college, graduate from university, and then begin looking after your life.

What life?

The life you built during adolescence.

That's the point.

Teenage life is the foundation of adulthood. It is the phase where you shape not only your future lifestyle but also the person you grow into. Being a teenager does not mean being depressed, anxious, or psychologically unwell all the time. Teenage years are the bridge between childhood and adulthood.

You do not yet carry the heavy responsibilities of an adult, but you are no longer careless like a child. You are not overwhelmed with work, yet you are not living without purpose. You are not an adult who never plays, and you are not a child who only plays.

One part of you is discovering life, while the other part is constructing it. know how difficult it is to stay home and study while others your age are partying, hanging out, and having fun. But one day, you will see the results of the nights you chose discipline over distraction.

You are the architect drawing the blueprint of your life, imagining how you want it to be. At the same time, you are the builder bringing that vision into reality. You decide whether to build a house that collapses in harsh weather or one that stands strong against everything.

The choice is yours.

The ball is in your court.

Burn the midnight oil-because the future you will thank you for it, and a fulfilling life will be waiting

CLASS 8 (B)

Greatest Footballer Ever……..

Cristiano Ronaldo dos Santos Aveiro (born 5 February 1985) is a Portuguese professional footballer who plays as a forward for, and captains, both Saudi Pro League club Al-Nassr and the Portugal national team. Nicknamed CR7, he is widely regarded as one of the greatest players in history, and has won numerous individual accolades throughout his career, including five Ballon d'Ors, a record three UEFA Men's Player of the Year Awards, four European Golden Shoes, and was named five times the world's best player by FIFA. He has won 34 trophies in his career, including five UEFA Champions Leagues and the UEFA European Championship. He holds the records for most goals (140) and assists (42) in the Champions League, goals (14) and assists (8) in the European Championship.

Born in Funchal, Madeira, Ronaldo began his career with Sporting CP before signing with Manchester United in 2003. He became a star player at United, where he won three consecutive Premier League titles, the Champions League, and the FIFA Club World Cup. His 2007–08 season earned him his first Ballon d'Or at age 23. In 2009, Ronaldo became the subject of the then-most expensive transfer in history when he joined Real Madrid in a deal worth €94 million (£80 million). At Madrid, he was at the forefront of the club's resurgence as a dominant European force, helping them win four Champions Leagues between 2014 and 2018, including the long-awaited La Décima. He also won two La Liga titles, including the record-breaking 2011–12 season in which Madrid reached 100 points, and became the club's all-time top goalscorer. He won Ballon d'Ors in 2013, 2014, 2016 and 2017, and was runner-up three times to Lionel Messi, his perceived career rival. Following issues with the club hierarchy, Ronaldo signed for Juventus in 2018 in a transfer worth an initial €100 million,

WOMEN EMPOWERMENT

Women empowerment means giving women equal rights, opportunities, and freedom to make their own decisions in life. It focuses on improving the social, educational, economic, and political status of women so they can live with dignity and confidence. A society can progress only when women are treated as equals and allowed to contribute fully.

Education and financial independence play a crucial role in empowering women. Education helps women become aware of their rights, build self-confidence, and develop skills for employment. When women are economically independent, they can support themselves and their families, which leads to stronger and healthier communities.

Although progress has been made, challenges like gender discrimination, unequal pay, and violence against women still exist. To overcome these issues, society must change its mindset and support women equally. Empowering women benefits not only women but the entire nation.

Class 9 (A)

The most beautiful journey…

My school journey has been one of the most memorable and meaningful phases of my life. Each class taught me not only academic lessons but also important life values such as honesty, teamwork, patience, and respect for others.

School also gave me opportunities to participate in various activities like competitions, cultural programs, and sports. These experiences helped me develop confidence, leadership skills, and the courage to face challenges. I learned that success comes not only from winning but also from trying and improving.

I will always be grateful to my school for giving me knowledge, values, and memories that will stay with me for a lifetime.

NATIONAL PARKS

If you have visited National park you know that it is a place where's nature has been left undisturbed and you can see animals in natural surroundings. In and words, it is a park that preserves or conserve nature for future generations to study and enjoy. Every country in the world has its own national parks. There is an international organization, IUCN (the international union for the conversation of nature). That is the recognized as a regulatory body for the parks. According to IUCN there are more than 6500 national parks in the world today. The first national park in the USA is Yellowstone national park. It was declared as national park in 1872. The largest national park is Greenland National Park.

There are 107 existing national parks in India, covering area of 44402.95 kilometer square which is 1.35% of geographical area of the country.

Assam is rich in biodiversity with 8 national parks and 17 wildlife sanctuaries. Each national park offers a unique blend of majestic wildlife, serene, riverine ecosystem and awe inspiring natural beauty.

Top five national parks in in Assam are kaziranga national park, Manas National Park, Dibru-Saikhowa National Park , Nameri National Park and Orang National Park .

Class -8A

THE ART OF COMPLETING HOMEWORK AT THE LAST MINUTE

Completing homework at the last minute is not laziness—it is a talent. A dangerous talent, yes, but a talent nonetheless. Only true students understand the confidence of saying, “I’ll do it later,” and the sudden panic when “later” arrives wearing a clock and an angry deadline.

The process usually begins with denial. Homework is ignored for days while we convince ourselves that it will magically finish itself. Then comes the night before submission, when reality hits harder than the alarm clock we forgot to set. Books are opened with dramatic sighs, pens are searched for like lost treasure, and Google suddenly becomes our best friend.

At this stage, the brain performs miracles. Concepts that made no sense in class suddenly become crystal clear at 11:58 p.m. Students develop superhuman speed—writing three pages in ten minutes while mentally calculating how many questions can be skipped without being noticed. Neat handwriting on the first page is mandatory; after all, first impressions matter, even if the last page looks like it was written during an earthquake.

Last-minute homework artists also master creative excuses. “I almost finished it, ma’am.” “I wrote it but forgot the notebook.” “There was a power cut.” Some even plan backup strategies, like borrowing a friend’s notebook during the morning assembly.

Despite the stress, there is unmatched satisfaction in submitting homework completed just in time. It feels like winning an Olympic event called Academic Survival. However, the promise is always made—“From tomorrow, I’ll start early.” Tomorrow, unfortunately, never comes.

Completing homework at the last minute may not be ideal, but it definitely makes school life memorable. After all, nothing builds character quite like panic, determination, and finishing an assignment five minutes before the bell rings.

CLASS 10

RIDDLES AND FUN FACTS

1. I get shorter the more I'm used, yet I help ideas grow. What am I?

Answer: A pencil

2. I have a spine but no bones, a cover but no bed, and I'm full of knowledge. What am I?

Answer: A book

3. I run around a field all day but never move an inch. What am I?

Answer: A fence

4. I get wetter the more I dry. What am I?

Answer: A towel

5. I follow you everywhere in the light but vanish in the dark. What am I?

Answer: A shadow

6. I have cities without houses, rivers without water, and mountains without trees. What am I?

Answer: A map

7. I speak without a mouth and answer without ears; I'm born when you call across a hall. What am I?

Answer: An echo

By Syeda Aaishah

Class 9

Riddles:

1. What has keys but can't open locks? ANS:- A Piano.

2. I have a head and tail, but no body. What am I ? ANS:-A Coin.

3. I can speak without a mouth and hear without ears. I have

nobody, but I come alive with wind. What am I ? ANS :- An echo .

4. The more you take , the more you leave behind. What am I?ANS:-Footsteps.

5. What comes once in a minute, twice in a moment ,but never in thousand years.ANS:-The letter 'M'.

6. What can travel around the world while staying in one corner? ANS:- A stamp.

7. What gets wetter the more it dries? ANS:- A towel.

8. I am tall when I am young, and short when I am old. What am I? ANS:- A candle.

9. What has an eye but cannot see? ANS:- A needle.

10. What has many teeth but can't bite? ANS:- A comb.

WHISPERS OF INK: POETRY BY OUR STUDENTS

Nature in danger

In an environment, a toxic gas comes,

That causes pain to our mother earth.

Wastes that land on rivers or ponds,

Causes them to lose their beauty or charm.

Skies that are filled with vicious gases,

Causes everyone to breath with difficulty.

Animals that were living with harmony,

are now on a time to get perished.

Name:-Nobopratim Sinha
Class :- 7

Colours

Colours dance in the sky,

Red sunsets, twigs high.

Blue waves crash on the shore,

Yellow sunshine, more and more.

Green fields sway, fresh and bright,

Orange hues, a warm delight.

Purple sunsets, twilight dreams,

Colours paint the world's schemes.

Debraj Das

Class 5

Nature's Beauty

So Simple in the snow on the trees,

And the way wind sways the leaves.

The feeling of grass on bare feet,

And the wound of rain on an empty street.

So lovely is the right of sparkling snow,

And blinding bright sun 'till it goes down low'.

The lake I wish to live on one day,

And the wild life that you can watch Sing and Play.

So much beauty in the sunset by the ocean,

And the waves in their peaceful motions.

The forest where all is green and lively,

And the beauty found in the buzzing of a Single bee.

So enchanting is the early morning dew,

And the singing birds to give the young day a preview.

The glistening stars that illuminate the darkest nights,

Amazing is the ability nature has to make all wrongs, right.

- Ishaan Singh

- Class 8

ANGELS…

Angels are divine, with wings so bright,

Shining stars in the dark of night.

Their presence brings peace, a gentle breeze,

A comforting feeling that brings us to our knees.

With halos shining, they watch over me,

Guiding me through life's journey, wild and free.

Their love is pure, their hearts so true,

A guardian angel, always looking through.

In times of need, they lend a hand,

A heavenly presence, in a troubled land.

TEACHER'S COLUMN: LESSONS BEYOND THE CLASSROOMS

The Fruits of Self – Introspection

Until she climbs up to the peak

And drag the heaven on her,

Let her go....

Walk and achieve what she conceals,

For the thoughts that she preserves in her

Must be expressed to win excellence.

Through the gloomy corridor she shall advance,

Untying the chains,

tying her to the cage of dreams

and aspirations of others...

To fulfill,

The cruel bars that are hindering her from the ‘beauty of freedom’,

And restricting her exit,

Will be broken by the growth of her ideas,

That will blossom to strengthen herself to

Step up to the glory of achieving her destiny.

And, every footprint that she leaves

In the journey of ‘building herself’

Will return humanity,

The Fruits of Self-Introspection

WOMEN.....

Woman is a strong agent of change in the society. Women are the sole reason for the existence of this society; they have the power to give life. Without women, the world would have been a ruthless place and that is why it is said that women are a great blessing to humanity. They have achieved great success in every field. They are no less than men in any way. A woman plays so many roles in the society, she is a mother, a daughter, a wife, a sister, a friend- all in all a complete person. She plays every role and takes up every responsibility perfectly. Then why women are always dominated in our society? Why do women always have to suffer? The only reason for this is the narrow mentality of the people. It is high time that we make people realize the importance of women in this society. As a responsible citizen of our country, we must bring a change in the mentality of the people.

Millions of girls and women are still abused in several parts of our country. Eve-teasing, dowry, female infanticide, molestation, domestic violence etc. are the major social evils of our society. We can cite the example of the dreadful gang rape case that took place in Kolkata about a year ago. Everyone fought for justice for the victim. This incident almost moved the wholenation. It created a sense of unity among the to fight against all the evils of can ruin the life of millions of young girls.

We say that India is an independent country, but according to me India has not yet gained independence in true sense. Until and unless we learn to respect and recognize the strong position of women in our society, we will never gain independence in any aspect. We worship Goddess Lakshmi for wealth, we worship Goddess Saraswati for education, we worship Goddess Durga for strength. Aren't they are all women? Then why do people do wrong to the other women, why can't they feel their importance? A women's character can never be judged by her clothes, she can only be judged by her behavior. Women of today are the future of tomorrow. They occupy an inevitable place in our society.

"Soldiers wanted, not to guard the borders,

Not to go to the war.

But to support the most important battle

Of our country.

To stand up for women

Because when you respect women,

You respect your nation..."

Sagarika Saha
Assistant Teacher

Take Your Dream Job… Measure Your Dreams

Dreams are the starting point of every great achievement. If nothing is impossible, what stops us from thinking big and striving for more? Every successful journey begins with a single thought—a dream. When we dare to dream big, we open the door to achieving bigger successes in life.

Milestones are the small, meaningful goals that act as stepping stones toward our larger dreams. They guide our progress and keep us focused.

I still remember attending a seminar years ago at the District Library, Guwahati, where the concept of "Goal Setting" was introduced to me. The speaker emphasized that in today's world, both the government and corporate sectors require not only hardworking individuals but SMART individuals.

The acronym SMART stands for:

S – Specific

M – Measurable

A – Achievable

R – Realistic

T – Time-Bound

A goal becomes powerful only when it reflects all these components. Without them, our dreams may remain vague and unfulfilled. SMART goals help us take control of our ambitions instead of allowing external events and people to influence our direction.

One of my mentors once shared a simple but effective strategy for setting and achieving goals. This strategy can help students work steadily towards their dream careers.

A Four-Step Strategy for Achieving Your Dream Job

1. Identify Your "Why"
Understand why you want a particular outcome. Clear reasons provide strong motivation.

2. Define Your Ultimate Goal
Set a specific goal and decide when you want to achieve it.

3. Develop an Effective Strategy
Plan how you will reach your goal.

4. Take Massive Action
Put your plan into practice with dedication and consistency.

In simple terms:
WHY → WHAT → HOW & WHEN → DO IT

Practical Steps to Follow

Step 1:

Write down your dream job and the reason you wish to pursue it.

Step 2:

Identify the five most important goals you want to achieve in the next six months. These should be directly related to the progress you need to make toward your dream.

Step 3:

Write the reasons behind each goal. When your goals are supported by meaningful reasons, they become powerful enough to help you overcome challenges.

Step 4:

List all the action steps required to achieve each goal. Note down every small task that contributes to your progress.

Step 5:

Rearrange your action steps in order of priority. Remove unnecessary steps and finalize your plan.

Step 6:

Place your goals where you can see them every day—on your study table or notice board. Write them clearly and boldly. Adding inspiring pictures can help keep you motivated.

Step 7:

Visualize your goals each morning. Imagine how it will feel when your dreams come true. Visualization boosts confidence, energy, and determination.

Step 8:

Review your goals daily or weekly. Ask yourself:

- Am I moving in the right direction?
- Are my actions aligned with my goals?

If something is not working, make corrections and continue forward with renewed energy.
Many young students lose confidence because they share their dreams with people who discourage them. Protect your dreams from negativity. Believe in yourself and nurture your ambitions with positive thoughts.
Remember: "You can achieve your dream job—if you can measure it."

Sagarika Saha
Assistant Teacher

Lessons That Were Never in the Syllabus:

Dear Students,

As a teacher, I have often seen you bent over notebooks, memorising answers, practising sums, and preparing for examinations. Those lessons in syllabus are important—they shape your knowledge. But with time, you will realise that some of the most powerful lessons were never written on the pages of your textbooks. When you go beyond book learning, you begin to learn life itself.

Schools not only teaches you subjects; it quietly teaches you how to become a good human being. You learn patience while waiting for your turn, respect while listening to others, and kindness while helping a classmate who is struggling. These lessons do not carry marks, yet they carry meaning for a lifetime.

One day, you may forget formulas or dates, but you will remember how it felt to be encouraged, how a teacher believed in you when you doubted yourself, or how a friend stood beside you during a difficult time. These moments shape your character far more deeply than any examination.

Life, like learning, is not about being perfect. Mistakes are not failures; they are opportunities. In school, when you make mistakes, you are guided to correct them. Life works the same way. Every mistake teaches you resilience, humility, and the courage to try again. Those who learn to accept mistakes grow stronger, wiser, and more confident.

School also teaches you how to deal with challenges. Deadlines teach responsibility, teamwork teaches cooperation, and discipline teaches self-control. These lessons prepare you for real life, where success depends not only on intelligence, but on attitude and values.

As you move forward, remember this:

Marks may open doors, but values help you stay inside with dignity.Knowledge may give you a career, but character gives you respect. Everyday school teaches you new lessons, from book and for life, learn your lessons well.

Carry honesty, empathy, courage, and curiosity within you. These are the lessons that will guide you throughout your life. And always remember, education is not just about making a living, but about making a life.

— Priya Karmakar

Asstt.Teacher

Use of AI in the Modern World

Artificial Intelligence (AI) has become an important part of our daily lives. It refers to machines and computer programs that can think, learn, and make decisions like humans. Today, AI is used in almost every field, making our work easier, faster, and more accurate.

One of the most common uses of AI is in smartphones. Features like voice assistants, face recognition, and smart photo editing are all powered by AI. In schools, AI helps students learn better through personalized learning apps, online quizzes, and educational videos that explain difficult topics in simple ways.

AI is also transforming the medical field. Doctors use AI tools to detect diseases early, understand reports quickly, and give better treatment. In transportation, AI is used in GPS navigation, traffic management, and even in self-driving cars.

Businesses use AI for online shopping recommendations, customer support chatbots, and fraud detection. Even in our homes, AI powers smart devices like speakers, lights, and security cameras.

Although AI has many benefits, it must be used responsibly. It is important to ensure privacy, avoid misuse, and understand that AI should support humans—not replace them. In the modern world, AI has become a powerful tool that helps us improve our lifestyle, solve problems, and build a smarter future.

By - Sagar Kr. Mishra

DEPARTMENT OF A.I

The Disguised Guardian Angel

It was in the year 2022, that I met Manorama Das, an eminent Assamese writer. The first time I met her, I had the feeling of closeness and proximity towards her. She is a very lovely lady. Her speech reflects dignity and her heart is full of compassion.

Manorama Das stands as an icon of Feminist strength in this patriarchal or male dominated society. She is a renowned Assamese author, poet and an influential social worker. She has won numerous prizes and honours and prestige for her "books" as an author and her 'poetry'. She has written various books such as 'Kabita Sayan', 'Kabir Annaya Ek Prithibi', 'Hridoyor Spondon', 'Kolija'r Phool' and 'Kagoz or Now' which belongs to the genre of poetry and also books such as 'Amrit Vani', Bidekh ot Sinaki Manuh', 'Gyan Probah', 'Mur Tora Vora Akakhot' and many more valuable volumes reflecting her deep felt emotions.

As a young child of twelve, she wrote poetry under the pseudonym of 'Tara' and hid it from her brother as she was quite shy about disclosing it and never published her poems.

Manorama Das is a highly educated personality and is a distinguished figure, blessed with far and wide spread fame and glory.

She was awarded with the 'Jibon Jora Sadhana Botah' in 2023 in the National Poetry Festival-2, the 'Shreshtha Samaj Sangathan and Sewa Botah' in 2018, the 'Anuprerona Life Time Achievement Award' in 2019 for her dedication to the cause of the society and an active participation in creative contribution towards outstanding artistic significance to the field of Indian Literature and numerous other awards.

She is an inspiration to me, who inspired me to study further and she influenced me in such a way with her own life experience of her higher studies even after her marriage, that I too became dedicated towards my career and completed my Master's Degree in English in the year 2023, after twelve years of completing my graduation from B. Barooah College Guwahati.

My heart felt thanks to this lady who changed my life with the magic of her words.

Moromi Nath Sarania

Assistant Teacher

A School: A Small Family with Great Responsibilities

A school is not just a building with classrooms, books and playgrounds. It is a vibrant, living community where students, teachers and staff come together to learn, grow and support one another. In many ways, a school is just like a small family. Each member has a unique role, and together they create an environment filled with care, cooperation and responsibility.

Just like a family, a school teaches us the values of love, respect and unity. Students share their joys, difficulties and ambitions with their friends, just as siblings do. When someone faces a problem, classmates step in to help, offering encouragement and comfort. Celebrating festivals, annual days, sports events and success stories strengthens the bond among all members of the school community. These shared experiences make us feel connected and valued.

Teachers, like guiding parents, play a very important role in this small family. They not only teach academic lessons but also show us how to face challenges with courage and positivity. They help us discover our talents and inspire us to work hard. Their encouragement builds our confidence and shapes our character. Teachers also ensure that every child feels heard and supported, making the school a safe and nurturing space.

Every student in this family has certain responsibilities. It is our duty to respect our teachers, obey school rules and maintain discipline. We must keep our classrooms clean, complete our homework on time and participate actively in school activities. Treating classmates with kindness, avoiding bullying and helping others when needed are also important responsibilities. By fulfilling these duties, we contribute to a peaceful and positive school atmosphere.

The non-teaching staff—helpers, drivers, peons, guards and cleaners—are also valuable members of this family. Their daily efforts keep the school clean, safe and organised. Respecting them and appreciating their hard work is an important lesson that school teaches us.

When all members of this small family work together with honesty and dedication, the school becomes a place filled with harmony and learning. We develop important life skills such as teamwork, leadership, empathy and discipline. These qualities prepare us for the future and stay with us throughout our lives.

Thus, a school truly becomes a small family with great responsibilities. It is a place where we learn to share, care, help and grow. The bonds we make and the values we learn in school shape us into responsible, confident and compassionate individuals.

ASSISTANT TEACHER

Influence of art on young minds

It is often said that art can be a great companion in an individual's journey of personal growth. Be it practicing or consuming any art form, it has a strong influence, especially on young minds, because it shapes how they see the world and understand themselves. When students engage with music, painting, poetry, dance or storytelling, they develop creativity, better memory and stronger problem solving skills. These activities help them to build confidence and express their emotions in a healthy way. Learning an art form teaches patience, discipline and teamwork, which are valuable for overall personality development. It also helps children become more open minded and sensitive to different cultures and ideas. However, the exposure to art can have negative effects too. Constant exposure to violent or overly unrealistic content in movies, games, songs, literature or any other form of art might leave an unhealthy impression on a child's behaviour and their moral character. This is why they must be given proper guidance and awareness regarding these matters. When art is taught with proper purpose and balance, it leads to both mental as well as emotional maturity.

Assistant Teacher

SOS: Assamese Manuscripts

The word manuscript in Assam is mainly related to Shankardeva and his Neo - Vaishnavite movement. It can be easily said that tthis manuscripts were the main vehicle of Shankardewa's religious movement in Assam. Puthi or Sanchi puthi ensures for it a most venerable position in the mind of the people who worship it in place of any idol in the altar at the namghar. Mahapurush srimanta Shankardev composed his Ghosas, pada, Bargeet, nats and Bhatimas on these manuscripts. The Sanchi puthi played a significant role in the upliftment of the Assamese society. They were painted on

1) Sanchipat - the leaves of the Sanchi tree

2) Sanchi bark - thicker variety of the aloe wood

3) Tula pat - made by pressing cotton

4) Talpat - Palm leaves

5) Muga cloth - manus ripts on muga silk

6) tender bamboo

7) Bhuja lives

The ink was prepared locally by Silikha (Haritaki) seeds, kheraj, ashes, minerals, etc. normally black which was slippery and glossy was used for writing and painting. The scribe was 'lekhak' and the illustrator was a 'khanikar'.

The history of Assamese painting can be traced back to the time of Kumar Bhaskarbarma, the king of ancient Assam. It is mentioned in the 7th century 'Harshacharitra' . The colours are very simple with red blue black and yellow as a dominating colour. Red background is used to depict day and blue for night and indoor. Realistic treatment can be observed in Sanghasura - Vadhkavya and hathi puthi.

The glorious past of Assamese culture and society lies in these manuscripts. This invaluable and unique tool of knowledge is now under threat and the manuscripts are disappearing at an alarming rate.

The Magnet in Your Mind:

Is "The Secret" Real?

We've all had those mornings where the universe seems to have a personal grudge against us.You oversleep, your phone dies, you spill juice on your clean shirt, and you finally miss the bus by mere seconds. By the time you walk through the school gates, you've already declared,"This is going to be the worst day ever." And, almost like clockwork, it is. You fail a surprise pop quiz, get into an argument with a friend, and lose your favorite pen. But have you ever paused to wonder: did the bad day happen to you, or did your attitude actually **invite** it?

This is the core of a trending philosophy known as the **Law of Attraction**. While it sounds like something out of a sci-fi movie, millions of people—from athletes to CEOs—swear it is the "Secret" to their success.

What Exactly is "The Secret"?

The "Secret" isn't really a secret at all; it's an ancient idea that has been repackaged for the modern world. At its heart, it suggests that our thoughts have a kind of **magnetic power**.

Think of the universe as a giant mirror. Whatever "energy" you project into the mirror is exactly what it reflects back to you. If you spend your day focused on "lack"—thinking about the money you don't have, the grades you wish were better, or the things you hate about your life—the Law of Attraction suggests you are actually magnetizing more of those negative experiences toward you.

On the flip side, if you focus on **abundance**—feeling grateful for what you have and visualizing your future success—you begin to attract those positive outcomes.[1] It's the idea that "like attracts like."

It's More Than Just "Wishing"

A common mistake people make is thinking that the Law of Attraction is just passive daydreaming. They think if they sit on their bed and wish for a million dollars or an 'A' in

Math, it will just drop from the ceiling.
Real experts, like the late Bob Proctor, explain that the "Secret" actually requires a specific three-step process: **Ask, Believe, and Receive.**[2]
• **Step 1: Ask.** You have to be specific. Instead of saying "I want to be successful," say "I want to be the captain of the debate team."
• **Step 2: Believe.** This is the hardest part. You have to act and feel as if the goal is already yours. This changes your mindset from one of "wanting" to one of "having."
• **Step 3: Receive.** This means being ready when the opportunity arrives.
The most important part of this process is **Inspired Action**. You can't just "believe" you'll be a great athlete while sitting on the couch eating chips. You believe you are an athlete, so you go to the track and train with the confidence of a champion. As the famous saying goes: **The last six letters of "Attraction" are A-C-T-I-O-N.**

Why Gratitude is Your Secret Weapon

If the Law of Attraction is a radio, **gratitude** is the volume knob. It is the fastest way to shift your "vibration" from negative to positive. It might sound a bit "cheesy," but there is actually a scientific side to this. Our brains have something called the **Reticular Activating System (RAS)**.[3] This is a bundle of nerves that acts as a filter. When you decide to be grateful and focus on the good things, you are literally training your RAS to notice more good things.
If you think the world is a mess, your brain will find evidence to prove you right. If you think the world is full of opportunity, your brain will start spotting "lucky" breaks that you would have missed before. It moves you from a state of "I don't have enough" to a state of "I have plenty to work with."

The Takeaway: You are the Author

Whether you believe the universe is literally listening to your thoughts or you just think that "positive thinking" is a healthy habit, the lesson remains powerful: **You are the author of your own story.**
Most people let the outside world control how they feel inside. If the weather is bad, they feel bad. If someone is mean to them, they have a bad day. The Secret teaches you to flip the script. If you control how you feel on the inside, the outside world eventually has to catch up.
How to Start Today:
1. **Morning Visualization:** Spend two minutes imagining one thing you want to achieve today.
2. **The Gratitude List:** Write down three tiny things you are thankful for (even just a good snack or a funny meme).
3. **Watch Your Words:** Stop saying "I can't" or "I'll never." Replace them with "I am learning" or "I am becoming."
Watch how the "echo" of your life starts to change. You might just find that the magnet in your mind is more powerful than you ever imagined.
This section adds real-world proof to your article. It shows that many people the students already admire have used these exact techniques to reach the top.

Real Success Stories

From "The Secret" to the Spotlight

The Law of Attraction can sound like a nice theory, but does it actually work in the real world? Some of the most successful people in history claim that their achievements weren't just luck—they were "magnetized" through visualization and belief.

Jim Carrey's $10 Million Check
Before he was a Hollywood superstar, Jim Carrey was a struggling comedian with no money. In 1990, he did something bold: he wrote himself a check for **$10 million** for "acting services rendered." He dated it for Thanksgiving 1995 and kept it in his wallet. He would drive up to a hill overlooking Los Angeles and visualize directors admiring his work. Just before

Thanksgiving 1995, he landed the lead role in Dumb and Dumber, and his paycheck was—you guessed it—exactly $10 million.

Oprah Winfrey and the Power of 'Knowing'

Oprah is perhaps the most famous advocate of the "Secret." She believes her entire career is a result of her thoughts. When she wanted a role in the movie The Color Purple, she spent months visualizing herself on set. She even credits her billion-dollar empire to a daily practice of gratitude. As she famously says: "The way you think creates reality for yourself."

Conor McGregor: Visualizing the Victory

Long before he became a world-champion fighter, Conor McGregor was living on social welfare in Ireland. He used to visualize himself driving luxury cars and holding championship belts while he was still driving his girlfriend's old, vibrating car. He didn't just wish for it; he spoke about his wins as if they had already happened. He proves that when you combine a clear mental picture with "obsessive" hard work, the universe has no choice but to listen.

Lady Gaga: Living the "Lie"

Before she was a global icon, Lady Gaga used to walk down the street acting as if she were already a superstar. She told herself every day, "Music is my life, the fame is inside me, I'm going to make a number one record." She calls it a "mantra." She admits that at first, it felt like a lie, but she repeated it until one day, the lie became her truth.

As you close this page and head to your next class, remember: **You are a broadcasting station.** Every thought you think is a signal you are sending out. If you don't like what you're receiving, change the signal.

Happy Manifesting!

NILANJAN SARKAR

শিক্ষক আৰু ছাত্ৰ-ছাত্ৰীসকলৰ সম্পৰ্ক

শিক্ষক আৰু ছাত্ৰ-ছাত্ৰীসকলৰ সম্পৰ্ক সমাজৰ অন্যতম পৱিত্ৰ, গভীৰ আৰু গুৰুত্বপূৰ্ণ সম্পৰ্কসমূহৰ ভিতৰত অন্যতম। এই সম্পৰ্ক কেৱল পাঠ্যপুথিৰ জ্ঞান সীমাবদ্ধ নহয়, বৰঞ্চ ই মানৱ জীৱনৰ গঢ়ন, মূল্যবোধ আৰু ভৱিষ্যৎ নিৰ্মাণৰ সৈতে

গভীৰভাৱে জড়িত। এজন শিক্ষকে এজন ছাত্ৰ বা ছাত্ৰীক কেৱল বিষয়বস্তু শিকোৱাই নহয়, তেওঁলোকে জীৱনৰ পথ প্ৰদৰ্শক হিচাপেও গুৰুত্বপূৰ্ণ ভূমিকা পালন কৰে।

শিক্ষক হৈছে ছাত্ৰ-ছাত্ৰীসকলৰ বাবে স্তম্ভৰ দৰে। জীৱনৰ বিভিন্ন ধৰণৰ সমস্যাৰ সন্মুখীন হোৱাৰ সময়ত শিক্ষকৰ পৰামৰ্শ আৰু অনুপ্ৰেৰণা ছাত্ৰ-ছাত্ৰীসকলৰ বাবে এক অমূল্য সম্পদ। শিক্ষকৰ সদয় ব্যৱহাৰ, ধৈর্য্য আৰু উৎসাহে ছাত্ৰ-ছাত্ৰীসকলৰ আত্মবিশ্বাস বৃদ্ধি কৰে আৰু তেওঁলোকক আগবাঢ়ি যাবলৈ প্ৰেৰণা দিয়ে। এজন ভাল শিক্ষক ছাত্ৰ-ছাত্ৰীসকলৰ ভিতৰত লুকাই থকা প্ৰতিভা চিনাক্ত কৰি তাক বিকাশ ঘটাবলৈ সদায় সচেষ্ট থাকে।

অন্যফালে, ছাত্ৰ-ছাত্ৰীসকলৰ কৰ্তব্য হৈছে শিক্ষকৰ প্ৰতি সন্মান, বিশ্বাস আৰু আন্তৰিকতা প্ৰদৰ্শন কৰা। শিক্ষকক সন্মান জনোৱাটো কেৱল সামাজিক দায়িত্ব নহয়, ই নৈতিক মূল্যবোধৰো এক গুৰুত্বপূৰ্ণ অংশ। যেতিয়া ছাত্ৰ-ছাত্ৰীসকলে মনোযোগেৰে শিক্ষা গ্ৰহণ কৰে আৰু শিক্ষকৰ নিৰ্দেশনা অনুসৰণ কৰে, তেতিয়া শিক্ষাৰ প্ৰক্ৰিয়াটো অধিক সফল আৰু ফলপ্ৰসূ হয়।

শিক্ষক-ছাত্ৰ সম্পৰ্কত বিশ্বাস আৰু সহানুভূতিৰ ভূমিকা অতি গুৰুত্বপূৰ্ণ। এজন শিক্ষকে যদি ছাত্ৰ-ছাত্ৰীসকলৰ সমস্যাবোৰ বুজি পায় আৰু সহানুভূতিসহ ব্যৱহাৰ কৰে, তেন্তে ছাত্ৰ-ছাত্ৰীসকলে তেওঁলোকৰ মনৰ কথা মুকলিভাৱে ক’ব পাৰে। ইয়াৰ ফলস্বৰূপে শিক্ষণ প্ৰক্ৰিয়াত ইতিবাচক পৰিৱেশ গঢ় লৈ উঠে।

আধুনিক যুগত শিক্ষা ব্যৱস্থাত বহু পৰিৱৰ্তন আহিলেও শিক্ষক আৰু ছাত্ৰ-ছাত্ৰীসকলৰ সম্পৰ্কৰ মৌলিক মূল্য একেই থাকে। প্ৰযুক্তিৰ ব্যৱহাৰ বৃদ্ধি পাইছে যদিও শিক্ষকৰ মানৱিক স্পৰ্শ আৰু পথ প্ৰদৰ্শনৰ বিকল্প কেতিয়াও হ’ব নোৱাৰে। এজন শিক্ষকৰ এটা উৎসাহমূলক বাক্যই এজন ছাত্ৰৰ জীৱন সম্পূৰ্ণৰূপে সলনি কৰিব পাৰে।

সাৰাংশত ক’বলৈ গ’লে, শিক্ষক আৰু ছাত্ৰ-ছাত্ৰীসকলৰ সম্পৰ্ক হৈছে জ্ঞান, সন্মান, বিশ্বাস আৰু অনুপ্ৰেৰনাৰে ভৰা এক পৱিত্ৰ বন্ধন। এই সম্পৰ্ক যিমানেই শক্তিশালী আৰু আন্তৰিক হ’ব, সমাজ আৰু ৰাষ্ট্ৰৰ ভৱিষ্যৎও সিমানেই উজ্জ্বল হ’ব।

নিষ্ঠুৰ সময়

এখন বিচিত্ৰ গাঁৱত মইনা নামৰ এগৰাকী কণমানি ছোৱালী বাস কৰিছিল। তাই অতি মৰমলগা আৰু দয়ালু আছিল। তাইৰ চকু দুটা ৰাতিৰ আকাশৰ তৰাৰ দৰে জিলিকি উঠিছিল। কিন্তু মাকৰ মৃত্যুৰ এবছৰৰ পিছত তাইৰ দেউতাকে অনিমা নামৰ এগৰাকী

মহিলাৰ সৈতে পুনৰ বিবাহপাশত আবদ্ধ হোৱাৰ লগে লগে তাইৰ জীৱনে এক কৰুণ ৰূপ ল’ বলৈ ধৰিলে।

অনিমাই ঘৰখনত ভৰি দিয়াৰ পৰাই মইনাৰ জীৱনটোক নিষ্ঠুৰতাৰ অশুভ ডাৱৰে আৱৰি ধৰিলে। অনিমা আছিল এগৰাকী ইৰ্ষাপৰায়ণ আৰু কঠোৰ স্বভাৱৰ মহিলা। মইনাই দেউতাক আৰু গাঁৱৰ মানুহৰ পৰা পোৱা মৰম আৰু মনোযোগ তাই সহ্য কৰিব নোৱাৰিলে। সেয়েহে তাইৰ অন্তৰত ক্ষোভ জন্ম ল’লে। অনিমাই মইনাক ঘৰৰ সকলো কাম কৰিবলৈ বাধ্য কৰাইছিল। অলপ ভুল হ’লেই গালি-গালাজ কৰা, আনকি কঠোৰভাৱে প্ৰহাৰ কৰাতো তাই পিছপা নহ’ল।

এসময়ৰ আনন্দময় ঘৰখন মইনাৰ বাবে এক নিৰ্জন আৰু শ্বাসৰুদ্ধকৰ কাৰাগাৰলৈ পৰিণত হ’ল। তথাপিও তাই আশা এৰা নাছিল। গাঁৱলৈ সঘনাই অহা এগৰাকী বৃদ্ধা ভিক্ষাৰী মহিলাৰ সৈতে কথা পাতি তাই সান্ত্বনা পাইছিল। সেই বৃদ্ধাই সদায় দুখ-কষ্টৰ মাজতো ধৈর্য, সাহস আৰু বিজয়ৰ কাহিনী কৈছিল। সেই কাহিনীবোৰে মইনাক নিজৰ যন্ত্ৰণা সহ্য কৰিবলৈ শক্তি আৰু সাহস জুগাইছিল।

এদিন গাঁৱত এখন ডাঙৰ উৎসৱৰ আয়োজন কৰা হৈছিল। গাঁওখন সাজি উঠিছিল ৰঙীন পোহৰ আৰু আনন্দেৰে। উৎসৱৰ কথা শুনি মইনাৰ হৃদয় হেপাহেৰে ভৰি উঠিল। কিন্তু অনিমাই তাইক ঘৰৰ পৰা ওলাই যাবলৈ অনুমতি নিদিলে। তাইৰ চকুপানী বৰষুণৰ দৰে সৰি পৰিল, কিন্তু অন্তৰত সাহসৰ জুই জ্বলি উঠিল।

সেই নিশা চন্দ্ৰৰ ৰূপালী পোহৰৰ তলত মইনা চুপিচুপি ঘৰৰ পৰা ওলাই গ’ল। লাহে লাহে গাঁৱৰ মাজেৰে গৈ উৎসৱস্থলী পালে। ৰঙীন সজোৱা মঞ্চ, ঢোলৰ শব্দ আৰু মানুহৰ হাঁহি দেখি তাইৰ মনটো আনন্দেৰে ভৰি উঠিল।

কিন্তু কিছু সময় পিছতে তাইৰ পলায়নৰ খবৰ দেউতাক আৰু অনিমাৰ কাণত পৰিল। অনিমা খঙত জ্বলি উঠি উৎসৱস্থলীলৈ আহিল। তাইৰ মুখখন ক্ৰোধেৰে বিকৃত হৈ আছিল। মইনাৰ হৃদয় কঁপি উঠিল যদিও তাই এইবাৰ নিজৰ ঠাইত থিয় হৈ ৰ’ল। সাহসেৰে তাই নিজৰ দুখ, মৰমৰ অভাৱ আৰু অন্যায়ৰ কথা সকলোৰে আগত প্ৰকাশ কৰিলে।

গাঁৱৰ মানুহে মইনাৰ কথা শুনি মুগ্ধ হ’ল আৰু তাইৰ পক্ষ লৈ থিয় হ’ল। সেই মুহূৰ্ততে দেউতাকৰ হৃদয়ো জাগি উঠিল। তেওঁ উপলব্ধি কৰিলে যে ইমান দিনে তেওঁ সত্যটো বুজিব পৰা নাছিল। গভীৰ অনুতাপত তেওঁ অনিমাক ঘৰ নেৰিবলৈ ক’লে আৰু নিজৰ ছোৱালীক সুৰক্ষা আৰু মৰমেৰে ৰাখিবলৈ প্ৰতিজ্ঞা কৰিলে।

সেইদিনাৰ পৰা মইনাৰ জীৱনত লাহে লাহে পোহৰ ঘূৰি আহিল। গাঁৱৰ মানুহে তাইক মৰম আৰু সহায় আগবঢ়ালে। সময়ৰ লগে লগে তাইৰ হাঁহি পুনৰ আগৰ দৰেই উজ্জ্বল হৈ উঠিল। মইনা এগৰাকী আত্মবিশ্বাসী আৰু দয়ালু ব্যক্তিত্বলৈ পৰিণত হ’ ল। তাইৰ

কাহিনী দূৰ-দূৰণিলৈ বিয়পি পৰিল আৰু সকলোকে শিকালে–আন্ধাৰ সময়তো যদি সাহস আৰু দয়া অটুট থাকে, তেন্তে ভৱিষ্যৎ নিশ্চয় উজ্জ্বল হয়।

অসমৰ এগৰাকী নিঃশব্দ বীৰাংগনা

আচলতে অসমৰ এখন সৰু গাঁৱত ভুলু দেৱী নামৰ এগৰাকী নাৰ্চ বাস কৰিছিল। তেওঁ কেৱল এজনী নাৰ্চেই নহয়, তেওঁ আছিল হাজাৰ হাজাৰ লোকৰ জীৱনদাত্ৰী। উচ্চ শিক্ষাৰ ডিগ্ৰী নথকা সত্ত্বেও, তেওঁৰ অন্তৰত আছিল গভীৰ উৎসৰ্গা, অপাৰ মৰম আৰু অক্লান্ত সেৱাৰ মানসিকতা।

চাকৰিৰ আৰম্ভণিৰ পৰাই ভুলু দেৱী দৃঢ়তা আৰু সংকটৰ সময়ত স্থিৰচিত্তে কাম কৰিব পৰা এজনী নিভৃত যোদ্ধা হিচাপে পৰিচিত হৈছিল। তেওঁক সদায় দূৰ-দূৰণিৰ ঠাইলৈ পঠোৱা হৈছিল, য' ত বিদ্যুৎ, পকা পথ বা প্ৰয়োজনীয় আন্তঃগাঁথনিৰ অভাৱ আছিল। তেনেধৰণৰ কঠিন পৰিস্থিতিতো তেওঁ কেতিয়াও অভিযোগ কৰা নাছিল। তেওঁ সদায় কৈছিল, "এজন মানুহৰ মুখত যদি হাঁহি আনিব পাৰোঁ, তেন্তে সেয়াই মোৰ বাবে আটাইতকৈ ডাঙৰ প্ৰাপ্তি।"

প্ৰায় চল্লিশ বছৰ ধৰি তেওঁ নিজৰ গাঁৱখনত নিষ্ঠাৰে সেৱা আগবঢ়াইছিল। গাঁৱৰ হাজাৰ হাজাৰ লোকৰ স্বাস্থ্যৰ দায়িত্ব তেওঁ আন্তৰিকতাৰে পালন কৰিছিল। তেওঁৰ কৰ্মজীৱনত শিশুমৃত্যুৰ দৰে দুখজনক ঘটনা প্ৰায় নঘটিছিল বুলিয়েই ক' ব পাৰি। বন্যা, ৰোগ-ব্যাধি আৰু বিভিন্ন প্ৰাকৃতিক দুৰ্যোগৰ সময়তো তেওঁ অক্লান্তভাৱে সেৱা আগবঢ়াই গৈছিল, নিজৰ আৰাম-আয়েশৰ কথা নাভাবি।

এবাৰ তেওঁৰ নাম ৰাষ্ট্ৰপতি বঁটাৰ বাবে মনোনীত কৰা হৈছিল। এই খবৰ গাঁৱৰ বাবে অতি গৌৰৱৰ আছিল। কিন্তু শেষ মুহূৰ্তত তেওঁৰ নাম তালিকাৰ পৰা আঁতৰোৱা হ' ল আৰু বঁটাখন আন এজনী নাৰ্চক প্ৰদান কৰা হ' ল। গাঁৱৰ মানুহে গভীৰ দুখ অনুভৱ কৰিছিল। তথাপিও ভুলু দেৱীয়ে মনত কোনো ক্ষোভ পুহি ৰখা নাছিল। তেওঁ আগৰ দৰেই নিজৰ কৰ্মত ব্যস্ত থাকিল। তেওঁ ক' বলৈ ভাল পাইছিল, "বঁটা আহে আৰু যায়, কিন্তু মানুহৰ দুখ-কষ্ট সদায় থাকে। সেইবোৰ লাঘৱ কৰাটোৱেই আমাৰ প্ৰধান কৰ্তব্য।"

২০০৭ চনত তেওঁ স্বাস্থ্যজনিত কাৰণত অৱসৰ গ্ৰহণ কৰিলে। গাঁৱৰ মানুহে তেওঁৰ সন্মানার্থে এখন বিদায় অনুষ্ঠানৰ আয়োজন কৰিছিল, কিন্তু অসুস্থতাৰ বাবে তেওঁ উপস্থিত থাকিব নোৱাৰিলে।

অনুষ্ঠানত সেই নাৰ্চগৰাকীও উপস্থিত আছিল, যিজনীয়ে ৰাষ্ট্ৰপতি বঁটা লাভ কৰিছিল। তেওঁ মঞ্চলৈ আগবাঢ়ি আহি কিছু সময় নীৰৱে থিয় হৈ থাকিল। তাৰ পিছত কঁপি উঠা কণ্ঠৰে ক' লে, "মই এই বঁটা লাভ কৰিবলৈ যোগ্য নহয়। এই বঁটাৰ প্ৰকৃত প্ৰাপ্য ভুলু দেৱী বাইদেউ। মই বহু বছৰ ধৰি নীৰৱে আছিলোঁ, কিন্তু আজি সত্য ক' বলৈ বাধ্য হৈছোঁ। এইটো মোৰ জীৱনৰ আটাইতকৈ ডাঙৰ ভুল আছিল। বাইদেউ, যদি আপুনি মোৰ কথা শুনি আছে, তেন্তে মোক ক্ষমা কৰিব। এই সন্মান আপোনাৰেই।"

তেওঁৰ কথাত উপস্থিত সকলোৰে চকু পানীয়ে ভৰি উঠিল। গাঁৱৰ মানুহে একেলগে ক' লে– "ভুলু দেৱী অমৰ হওক।"

নীতি শিক্ষা:

অক্লান্ত পৰিশ্ৰম আৰু সততাৰ পথত অটল থাকিলে প্ৰকৃত সন্মান এদিন নিশ্চয় লাভ হয়। সাময়িক স্বীকৃতি নাথাকিলেও সৎ কৰ্মৰ ফল কেতিয়াও নষ্ট নহয়।

নাম-**গীতাঞ্জলী হাজৰিকা**

সপোনৰ দিশে আগবাঢ়া

সপোনৰ পিছে পিছে আগবাঢ়া,
থাকি নাথাকা পথত ৰ'ব নোৱাৰি।
জীৱন এখন কঠিন যুদ্ধভূমি,
হাৰিলে কোনোবাই জিকিব নোৱাৰি।
ধুমুহা আহে, আন্ধাৰ নামেও,
তথাপিও পোহৰ নোহোৱা নহয়।
নিজৰ ওপৰত ৰাখা বিশ্বাস,
তেতিয়াই সফলতাৰ বাট মুকলি হয়।
চকু মেলি চোৱা আকাশখন,
তাতেই তোমাৰ সপোন উৰে।
তোমাৰ অন্তৰত জ্বলিছে শক্তি,
সেই শক্তিয়েই আগবাঢ়িবলৈ শিকে।
পাহাৰ যেন লাগিলে ডাঙৰ,
ধৈর্যৰে গঢ়া সোপান ধৰি।
হাৰ নামানিবা কোনো দিনা,
জয় ৰ'ব তোমাৰেই কৰি।
সময় কম, কিন্তু মন ডাঙৰ,
সাহসেৰে আগবাঢ়া সোঁৱৰা।
বিশ্বাস থাকিলে নিজৰ ওপৰত,
একো অসম্ভৱ নহয় এই পৃথিৱীত ক'ৰা।

নম্রতা

ৰশ্মিৰ মাক অসুস্থ। সন্ধিয়া মাকক গুৱাহাটী চিকিৎসা মহাবিদ্যালয়ত ভর্তি কৰা হৈছে বুলি নম্রতাৰ সহপাঠী বিকাশে ফোনযোগে নম্রতাক জনালে।

নম্রতাই কিবা এটা সোধাৰ আগতেই বিকাশে ফোনটো কাটি দিলে।

নম্রতাই ৰশ্মিৰ মাকৰ অসুখটোৰ বিষয়ে সুধিব বিচাৰিছিল। তাই বিকাশলৈ পুনৰ ফোন কৰিলে যদিও ফোনটো বিজি বুলি দেখুৱালে।

নম্রতাই ভাবিলে, হয়তো বিকাশে আন সহপাঠীসকলকো খবৰটো জনোৱাত ব্যস্ত আছে। আজি শ্রেণীত ৰশ্মি অনুপস্থিত আছিল — নিশ্চয় মাকৰ অসুখৰ বাবেই।

ৰশ্মি, বিকাশ আৰু নম্রতা একেটা বিদ্যালয়ৰ একেটা শ্রেণীৰ সহপাঠী। নম্রতাৰ লগত ৰশ্মিৰ বিশেষ মিল নাছিল। আনকি প্রথম বেঞ্চত বহা নম্রতা, জাহ্নবী আৰু গায়ত্রীৰ লগতো ৰশ্মিৰ ঘনিষ্ঠ বন্ধুত্ব নাছিল। শ্রেণীত সকলো পৰীক্ষাতে নম্রতাই প্রথম স্থান লাভ কৰিছিল, জাহ্নবী আৰু গায়ত্রী ক্রমে দ্বিতীয় আৰু তৃতীয় হৈছিল। ৰশ্মিৰ স্থান সাধাৰণতে নবম বা দশমৰ আশে-পাশে থাকিছিল।

ৰশ্মিয়ে হয়তো ভাবিছিল যে নম্রতা আৰু তাইৰ মাজত প্রতিযোগিতা আছে, সেয়ে নম্রতাই তাইক ভাল নাপায়। কিন্তু নম্রতাই কেতিয়াও তেনে ভাবা নাছিল।

এবাৰ নম্রতাৰ মাক অসুস্থ হৈ পৰা সময়ত নম্রতা বিদ্যালয়লৈ যাব পৰা নাছিল। সেই সময়ছোৱাত ৰশ্মিয়ে এবাৰো নম্রতাৰ মাকৰ খবৰ লোৱা নাছিল। সেই কথাটো নম্রতাৰ মনত ৰৈ আছিল।

এতিয়া বিকাশৰ পৰা ৰশ্মিৰ মাকৰ অসুখৰ খবৰ পাই নম্রতাৰ মনটো বেয়া লাগিল। তাই মনমাৰি বহি আছিল। মাকে সুধিলে–

"মাইনা, তোৰ গা বেয়া নেকি? মনটো কিয় ইমান মাৰি আছ?"

তাই মাকৰ আগত ৰশ্মিৰ মাকৰ অসুখৰ কথা ক'লে।

মাকে লগে লগে ক'লে, "তই ৰশ্মিক ফোন কৰি খবৰ ল'লি নেকি?"

নম্রতাই ক'লে, "নাই।"

মাকে সুধিলে, “কিয় ফোন কৰা নাই? এতিয়াই ফোন কৰ।”

নম্রতাই অলপ সংকোচে ক’লে, “মা, তোমাৰ যেতিয়া টাইফয়েড হৈছিল, ৰশ্মিয়ে এবাৰো তোমাৰ খবৰ লোৱা নাছিল।”

তাই খবৰ লোৱা নাছিল বুলি তইও তাইৰ দৰে ব্যৱহাৰ কৰিবি কিয়? সহপাঠীৰ মাক অসুস্থ হ’ লে খবৰ লোৱাটো আমাৰ কর্তব্য।”

নম্রতাই ক’ লে, “মা, তোমাৰ দৰে ময়ো ৰশ্মিৰ মাকৰ খবৰ ল ’ বলৈ মনতে অলপ উচুপিচাই আছিল। মই কি কৰিম, সেইটো ঠিক কৰিব পৰা নাছিলোঁ।”

মাকক তাই সাবটি ধৰি ক’ লে, “মা, তুমি ইমান মহান! তোমাক লৈ সঁচাকৈ মই গৌৰৱ অনুভৱ কৰোঁ।”

এই বুলি নম্রতাই লগে লগে মোবাইল ফোনটো হাতত লৈ ৰশ্মিক ফোন কৰিবলৈ উঠিল।

एनसीसी पर कविता

सिर पर बैरेट लहराता हेकल

खाकी हमारी शान है,

1948 से प्रारंभ हुई

एनसीसी देश के नाम है,

दृढ़ निश्चय अटूट संकल्प का यह परिणाम है,

जल, थल, नभ, तीनों पर मुकाम है,

एकता और अनुशासन ही एनसीसी का पैगाम है,

एनसीसी मुख्यालय से भरी यही हुंकार है, बढ़ गए हैं कदम

अब रुकेंगे नहीं हम

चल पड़े हैं राह में

राष्ट्रीयता की चाह में.....

जय हिंद.....

पर्यावरण पर कविता

मिलकर आज ये कसम खाते हैं,
पर्यावरण को स्वच्छ बनाते है।
मिलकर आज ये कसम खाते हैं,
प्रदूषण को दूर भगाते हैं।
मानव तूने अपनी जरूरतों के लिए,
वातावरण को कितना दूषित किया है,
फिर भी पर्यावरण ने तुझे सब कुछ दिया है।
प्राण दायनी तत्वों जल, वायु और मिट्टी से,
हमारा जीवन का उद्दार किया है।
फिर भी मानव पेड़ काटता है,

अपने जीवन को संकट में डालता है।

पर्यावरण न होता तो जीवन मे रंग कहाँ से होते,

पर्यावरण को स्वच्छ बनाये हमारा प्रथम कर्त्तव्य है।

आओ मिलकर कसम खात हैं,

पर्यावरण को स्वच्छ बनाते हैं।

आज मिलकर कसम खाते है,

प्रदूषण को दूर भगाते हैं।

शिक्षा पर कविता

शिक्षा का महत्व

शिक्षा है ज्ञान का दीपक

जो रोशनी फैलता है

शिक्षा है बुद्धि का शिखर

जो ऊंचाई बताता है ।

शिक्षा है समाज का आधार

जो सबको जोड़ता है

शिक्षा है संस्कृत का गौरव

जो सबको गर्व दिलाता है ।

शिक्षा है विकास का साधन

जो नवीनता लाता है

शिक्षा है नैतिकता का दर्पण

जो सच्चाई दिखाता है ।

शिक्षा है आत्मनिर्भरता का पथ

जो स्वावलंबी बनता है

शिक्षा है आजादी का अधिकार

जो सबको समान बनता है ।

मां को पत्र

रांची
रविवार
आदरणीय मां
सादर प्रणाम *!*
मुझे काफी समय से कोलकाता के समाचार नहीं मिले हैं। आशा करता हूँ किआप अब स्वस्थ होंगे। शायद समयभाव के कारण आप पत्र नहीं लिख सकीं।
मझले दादा की परीक्षा कैसी रही *?* क्या आपने मेरा पिछला पत्र पढ़ा था *?* अगर नहीं पढ़ा है तो कृपया पढ़ ले, नहीं तो मुझे बहुत दुख होगा। क्या हमारी मातृभूमिइतनी अभागी हे *?* वे आर्यवीर आज कहा हैं जोह भारतमाता की सेवा के लिए अपना बहुमूल्य जीवन प्रसन्नता से न्योछावर कर देते है *?* मां *!* आप सभी भारतीयों की हैं और यदिसभी भारतीय आपके पुत्र हैं तो क्या आपके पुत्र का दुःख आपके व्यथा से विचलित नहीं कर देता *?* क्या कोई भी माता इतनी हृदयहीन हो सकती थी *?* फिर क्या कारण है किउसके बच्चों की ऐसी दृढ़ता होते हुए भी मां अप्रभावित बनी हुई हैं *?* मेरी मां, क्या भारतीयों की वर्तमान दशा को देखकर आपका हृदय सख्त के आंसू नहीं बहाता *?* बोलो मां, हम कब तक सोते रहेंगे *?* अब और प्रतीक्षा नहीं की जा सकती। अब और सोने का समय नहीं। हमें मनुष्य जीवन मिला है और साथ ही बुद्धि, चेतना, आत्मा जैसे गुण मिले हैं। लेकिन इन सबके होते हुए भी यदिहम पशुओं के सामान नैतिकताशून्य जीवन जीते रहें तो हमारे मनुष्य के रूप में जीने की क्या सार्थकता हैं*?* क्या वह जीवन जीने योग्य है जो दूसरों की सेवा में समर्पित न हो *?* मां, आप जानती हैं मैं आपको यह साब क्यों लिख रहा हूं *?*आप ही बताएं ये सब बातों मैं किस्से कहूं *?* कौन मेरी बाते सुनेगा *?*कौन इन्हें गंभीर मानेगा*?* जिनका जीवन स्वार्थसे प्रेरित है वे कभी इस प्रकार सोच नहीं सकते क्योंकिऐसी करने पर उनके स्वार्थपर आंच आएगी।
मेरी प्रभु से प्रार्थना है किमैं सम्पूर्णजीवन दूसरों की सहायता में बिता सकू। मुझे आशा है किवह सब कुशल होंगे, यह सब सानन्द हैं। कृपया मेरा प्रणाम स्वीकार करें और इस पत्र का उत्तर अवश्य दीजिए।
आपका पुत्र

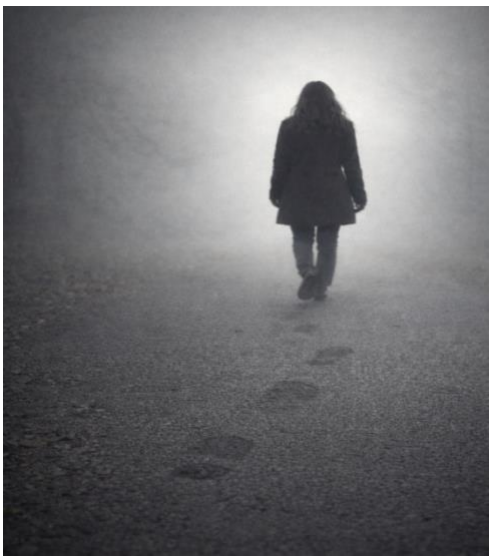
पहचान छोड़ गए



ख़्वाहिशें बहुत थीं मेरे दिल में लेकिन,
एक-एक कर सभी दम तोड़ गए।
मेरे अपने भी बहुत थे इस जहान में,
एक-एक कर सभी संग छोड़ गए॥

जिसको भी लगाया था गले हमने,
वही मेरी पीठ में ख़ंजर घोप गए।
बहुतों को दिल दिया ज़माने में मैंने,
एक-एक कर सभी दिल तोड़ गए॥

ये दुनिया है, यहाँ लोग गिरते भी हैं,
जिसे भी सहारा दिया, मेरे बाज़ू मरोड़ गए।

नहीं रही ये दुनिया अब इंसानों के लिए,

भगवान मनुष्य के रूप में शैतान छोड़ गए॥

जिस पर लुटाईं ख़ुशियाँ दोनों हाथों से,

दो ख़ुशी के बोल के बदले गाली बोल गए।

बहुत क़रीब से देखा है इस दुनिया को मैंने,

हर आदमी अपनी-अपनी पहचान छोड़ गए॥

Being a proud alumnus of Guru Nanak Senior Secondary School, I cherish the golden memories that shaped my childhood and personality. From inspiring teachers to unforgettable friendships, every moment here taught me values, discipline, and confidence. This school will always hold a special place in my heart and continue to guide me in my journey of life. Forever grateful!

Manvi Agarwal (Rozy)
Occupation: Owner of VLCC Bharulumukh and Zone Vice President of JCI India Zone 25
Batch/HSLC Year: 2005

Guru Nanak Senior Secondary School shaped my values, discipline, and confidence. The teachers' guidance and supportive environment helped me grow academically and personally. I proudly cherish my school memories and wish continued success to future Nanakians.

Name: Ritu Luthra
Occupation: Teacher
Address: Punjab.
HSLC Passed in 1997.

My school life, when it was earlier known as Shree Guru Nanak National Hindi High School and now as Guru Nanak Senior Secondary School, Guwahati, laid the foundation of my life. The guidance of my teachers, strong moral values, and a friendly yet disciplined environment inspired me to dream big and serve society with dedication and integrity. I studied in this school from Nursery (earlier A and B classes) to Class X. I have many memories attached to this institution and truly feel proud to have been a student of this esteemed school.

Today I would like to share my experience about one of the bestest schools of Assam i.e. Guru Nanak High school. I was a student of batch 2002 and those were the lovely days. We would not miss even a single day of school. Amazing teachers, fellow students and especially the campus, huge it was. And our preparations for the most important day of the year i.e. Guru Nanak Jayanti. Right from March past practices to the Rally to the Langar, every single thing was so so touching for us. There are lots and lots of things to share that can't be expressed in words but here I put an end to it. Thanks alot for everything

Being a 90s Kid, I had an extraordinary time in school. It was golden period of my life. Simple, loving and caring friends were like Brothers. We shared such a bond with teachers which are rare in today's world. Wish I could relive those moments! We were last Hindi medium batch and feel proud of having learned in our mother tongue. Thanks a lot to all school staff and our teachers for moulding us in what we are today!

Akash Garg, HSLC year 1994
Manufacturer of "NESOL" batteries and Solar, Civl & Electrical Contractor.

My school years were deeply shaped by dedicated teachers whose guidance, patience, and encouragement extended beyond textbooks. Their belief in us built confidence, discipline, and values that continue to guide my academic journey and life decisions.

Name: Vebhav Nahar
Present College: University of Delhi and Amity University Noida
Class: B.Com Hons. 6th Sem and BBA 4th Sem.

My experience at my previous school was valuable and memorable. The teachers were supportive, and the disciplined environment helped me build a strong academic foundation and personal values. The school also taught me that participation matters more than winning or losing, and that the courage to participate itself is a true achievement.

Saying goodbye to this place was never easy for me... Especially when you are living with the teachers and friends who felt more like a family

✨ □SGNNHSS□ ✨

My school where I have spent 10 years of my life.

I was a person who was just an average and too underconfident student but they helped me a lot to overcome my obstacles .And the teachers and friends, I have met along the way have made my every day worthwhile.. growing with such a talented and supportive team has always been an incredible experience of my life till now Although, I'm moving on..will always value the connections I have made in my second home

Thank you for everything SGNNHSS...

Wishing the future students all the very best for their upcoming success!!_

As an ex-student, my school laid the strong foundation of who I am today. The teachers were exceptionally supportive, the teaching methods engaging and effective, and the faculty genuinely cared for every student's growth. I not only progressed academically but also developed strong morals, built meaningful bonds, and carry memories that I will cherish forever. It is a place where every student is guided, inspired, and encouraged to realize their true potential.

मेरे विद्यालय का अनुभव गुरू नानक सीनियर सेकेंडरी स्कूल का समय सीखने, अनुशासन और नैतिक मूल्यो से भरपूर था। इस विद्यालय ने मेरे जीवन की नींव रखी

मेरे विद्यार्थि जीवन को अनुभव की आज भी याद करती हूं तो आँखे नम हो जाती है। वह एक सुनहरा और मस्त महत्वपूर्ण दौर था । सुबह होने का इन्तजार करना दोस्तो से मिलना अपने प्रिय अध्यापक को देखना । गृह कार्य न होने से मार खाने का डर । ये वो समय था जब हम सिर्फ किताबो से नही बल्कि जीवन के अनुभवों और पाठ्येतर गतिविधियों से भी सीखते थे।

वर्तमान विद्यार्थियों से निवेदन है-लक्ष्य पर ध्यान रखे, मेहनत करे और स्वय पर विश्वास रखे।

Spending more than a decade at Sri Guru Nanak National High School has been one of the most meaningful journeys of my life. The school shaped not only my academic foundation but also my character and values. The dedicated and supportive teachers always guided us with patience and encouragement, helping me build confidence, discipline, and responsibility. The positive learning environment motivated students to grow academically as well as personally. The friendships formed during these years were special, filled with laughter, teamwork, and unforgettable memories. Participation in school activities taught me leadership, cooperation, and perseverance. Every classroom lesson and life experience contributed to my overall development. The school also emphasized moral values, respect for others, and the importance of hard work. Celebrations, competitions, and daily interactions created moments that will always stay close to my heart. The values, discipline, and memories I gained at Sri Guru Nanak National High School will remain with me forever and continue to guide me in every step of my future journey.

Binayak Roy Choudhury

The Echoes of the Hallway

The morning bell, a rhythmic chime,

Marked the start of a simpler time.

With heavy bags and lighter hearts,

We played our many youthful parts.

The chalk dust danced in sunlit streaks,

While secrets hid in glowing cheeks.

The tiffin shared, a feast so grand,

Passed quickly through a friendly hand.

We dreaded tests and complex math,

But loved the winding, homeward path.

No worries then, no heavy care,

Just laughter hanging in the air.

Though years have blurred the things we knew,

The golden spark remains in view.

For in those halls, we found our way—

The magic of a school-bound day.

Nitin Sharma 2006 batch

Hi nanakians!

My name is Iti. I am a student of 2004 batch. It's not easy to put in words about my experience with the school. All I can say that the learnings I got from my teachers is now helpful. It's the seeds then sown are giving fruits today. How disciplined today we are,is because how disciplined we were then. Always grateful to be a Nanakian. Waheguru ji ka khalsa,waheguru ji ki Fateh.

Batch: 2004
Occupation: Homemaker
Present address: New Delhi

My school was more than just a place of study, it was a vibrant community that felt like a second home. The warm and inviting environment made every morning something to look forward to, with sunlit hallways and spaces designed for discovery. Our friendly and dedicated teachers, they didn't just deliver lessons, they offered guidance with patience and genuine care, ensuring that we felt seen

and encouraged. It was a place where curiosity was celebrated, and the kindness of the staff created a foundation of confidence that I still carry with me today.
And my personal appreciation to our beloved Chakraborty Sir, who teaches us the most difficult subjects i.e, Maths and Science in such a facile manner which was as easy as "ABC", although these were the highly scored subjects of my marksheet.

No doubt, the time we spent in the School Campus, is the best time of our Lives. In my case, beside the Academic achievements (The credit of which goes to The Brilliant Teachers, which we had), and the great Times, spent with the Friends. I must confess that the Seeds of Sprituality implanted in the soul of mine, by the daily simple routines which we performed at the School, like Chanting the Guruvani & shabads during the Prayer time, performing Ardas and Studying the Multiple part of the SIKH HISTORY Books, and anxiously waiting for the Clebration of the Birth Day of Shri Guru Nanak Dev ji, and participating in the various Programmes, Akhand Path, Taking part in the Procession from the Sikh Temple, Recitals of Japji Saheb, Langar, and the Evening Movie Show of Religious Films.

All these above regular Rituals, had shaped my soul the Way what I am Today Spritually. And I feel my self the most Fortunate one, to learn the Basics of The Sikhism ,and try to follow and learn these regularly till date.

I Wish all the Present Students a Great Suceesful & Spritual Life .

SATNAM SHRI WAHEGURU.

Heartfelt Message

I, Ruchi Pasrija, a proud student of Gurunanak Higher Secondary School, Batch of 1997, feel immense pleasure in writing this heartfelt message. I am truly grateful for the opportunity to reconnect with my alma mater and share my memories.

From classrooms to playgrounds, every corner of the school fills me with nostalgia and cherished memories. The values, lessons, and experiences I gained here have played a significant role in shaping my life.

I sincerely thank all my teachers for their constant guidance and support, especially our most respected Chakraborty Sir, who always motivated and encouraged us to strive for success and believe in ourselves.

I will always remain thankful to my school for everything it has given me. I wish Guru nanak Senior Secondary School continued success and many more achievements in the years ahead.

With gratitude,
Ruchi Pasrija
HSLC Batch 1997

YEAR IN A REVIEW

I. SHILLONG TRIP: The school organized an exciting educational trip to Shillong for the students of Classes XI and XII, free of cost. The trip was filled with joy, bonding, and exploration as students visited three to four popular spots together. It was a memorable experience full of learning, laughter, and fun.

2. SOHRA TRIP: As the students of Class X bid farewell to this academic year, the school organized a memorable trip to Cherrapunji. The journey was filled with excitement, scenic beauty, and shared moments, giving students a joyful break and a perfect way to create lasting memories before moving ahead.

3. EDUCATIONAL TRIP TO AMCHONG TEA GARDEN AND RESORT: The school organized an educational trip to Amchong Tea Garden and Resort, where students explored different varieties of tea and learned about tea tasting. A factory visit and informative session helped students understand the process of tea manufacturing, making the trip both educational and enjoyable.

4. WORLD ENVIRONMENT DAY: The school observed World Environment Day with activities aimed at raising awareness about environmental protection. Students participated in tree planting, cleanliness drives, and informative sessions on sustainable living. The initiatives encouraged responsibility, teamwork, and care for nature, inspiring everyone to contribute towards a greener, healthier planet and making environmental conservation a part of daily life.

5. INDEPENDENCE DAY: The school celebrated Independence Day with great pride and patriotic spirit. The programme began with the hoisting of the National Flag, followed by inspiring speeches, cultural performances, and patriotic songs presented by students. The celebration reminded everyone of the sacrifices of our freedom fighters and strengthened the values of unity, responsibility, and love for the nation among students.

6. VEER BAL DIWAS: The school observed Veer Bal Diwas to honour the courage and sacrifice of the Sahibzades. Through meaningful activities and discussions, students learned about bravery, faith, and patriotism. The observance inspired young minds to uphold values of courage, resilience, and selfless service in their lives.

7. GURUPURAB: The school celebrated Guru Purab with great devotion and discipline. A three-day programme was organized to mark the occasion, highlighting the teachings of Guru Nanak Dev Ji such as equality, service, and compassion. The celebration included prayers, reflections, and a free langar, where students and staff participated together, promoting unity, humility, and the spirit of selfless service within the school community

8. SPORTS DAY: The school conducted Sports Day for the Junior, ME, and Senior sections over three exciting days. Students participated enthusiastically in various activities designed for both boys and girls. The event was filled with energy, teamwork, and fun, promoting sportsmanship and physical fitness among all students.

9. SCIENCE EXHIBITION: The Annual Science Exhibition was a grand success, filled with creativity and excitement. Students showcased innovative projects, from eco-friendly solutions to futuristic tech. Distinguished guests, including trustee members, graced the event, adding to its significance. The exhibition was interactive, fun, and educational, highlighting the talent and enthusiasm of our young minds.

10: SUMMER CAMP: Our school recently hosted a fun-filled three-day summer camp in the month for students from Pre-Nursery to Class Seven. The camp featured a variety of exciting activities, including arts and crafts, outdoor games, and team-building exercises. It was a perfect blend of learning and fun, allowing students to explore their creativity, build new skills, and make lasting memories.

11. INTER HOUSE QUIZ COMPETION: Regular Quiz Competitions were conducted to enhance students' knowledge and thinking skills. These competitions encouraged curiosity, quick thinking, and healthy competition among students. Participation helped boost confidence, teamwork, and awareness across various subjects, making learning both engaging and enjoyable**.**

12. MAGH BIHU: The school celebrated Magh Bihu with great enthusiasm, reflecting the rich cultural heritage of Assam. Students participated in traditional performances, songs, and activities that showcased the spirit of harvest and community bonding. The celebration promoted cultural awareness, unity, and joy, making it a vibrant and memorable occasion for everyone.

13. REPUBLIC DAY: Republic Day was celebrated in our school with great enthusiasm and joy. The campus was filled with a patriotic spirit as students and teachers gathered for the occasion. The celebration began with the hoisting of the national flag, followed by the National Anthem. Students actively participated in various cultural programmes, including patriotic songs, dances, speeches, and skits that reflected the pride and unity of our nation. The vibrant performances and colourful decorations added to the festive atmosphere. The celebration concluded with inspiring words from the teachers, reminding students of

their duties as responsible citizens, making the day both enjoyable and meaningful for everyone.

14. BLESSING CEREMONY: The school has organised a blessing ceremony for the students of class 10 and 12, for motivating them for the upcoming HSLC and HS examinations respectively. The event was graced by our secretary sir and trustee members. a cultural programme was organised followed by speeches from our senior teachers and a get together lunch

APART FROM THAT WE ARE REGULARLY CONDUCTING HOUSE ACTIVITIES ON EVERY WEDNESDAY TO BOOST THE COMPETITIVE SPIRIT OF THE STUDENTS.
